

LAKSHAY- 2015-17

"A Voice of Champions"

सरस्वती माँ शत प्रणाम, घट में भर दे ऐसा ज्ञान।
करें देश सेवा का काम, पढ़ लिखकर हम पाएँ मान।

हे माँ हमको शक्ति दे, जन सेवा की भक्ति दे।
नेक बनें यह युक्ति दे, जात पाँत से मुक्ति दे।

शिक्षा की सब ज्योति जलाएँ, अनपढ़ को हम गले लगाएँ,
समता का हम साथ निभाएँ, जो सोए हैं उन्हें जगाएँ।

शिक्षा की फूली फुलवारी, दुनिया में हो साख हमारी।
रक्षित होंगे सब नर नारी, दे मैया आशीष तुम्हारी।

OBJECTIVES OF COLLEGE MAGAZINE

1. To unify the college spirit.
2. To encourage desirable college activities.
3. To give authentic information regarding the college to students, parents, patrons, old students & other educational institutions.
4. Provide opportunity for creative work & self-expression.
5. Quality of cooperation, accuracy, tolerance, responsibility, initiative, leadership & cordial relations among different institutions.
6. Using language not only for communication but for enhancing cognitive domain.
7. Problem solving capacities, thinking skills and imagination in students.
8. Self motivation and inspiration- The excitement in knowing one's work has been selected for publishing encourages a student to repeat his/ her efforts there by keeping them meaningfully engaged.
9. Similarly, the sight of a fellow-student's work might just inspire the others to give it a shot themselves.
10. Self-help and self-confidence in students, building their self-reliance and ambition.
11. Values of commitment, time- management and thoroughness.
12. To develop in students a sense of loyalty towards the institutions and feel pride for its achievements.

It gives me immense pleasure to know that the Dronacharya Post Graduate College of Education, Rait, District Kangra is publishing the next edition of its magazine 'Lakshay'.

The College magazine provides a good platform to the students to present their talent and creativity besides reflecting the educational and other activities of the institution. In present context the higher learning institutions need to share the responsibility of equipping their students with best of the skills which could help them progress in their lives and meet future challenges. Teaching faculty has to play pivotal role in guiding their students towards constructive and positive activities.

I am hopeful that more and more students will come forward to contribute to the magazine.

I extend my good wishes for successful publication of 'Lakshay'.

(Virbhadra Singh)

Prof. Surdarshana Rana
Chairman, Department of Education
H.P. University, Shimla -5

MESSAGE

I feel delighted to know that Dronacharya Post Graduate College of Education, Rait, Kangra managed by OCEAN Society is bringing out the 10th edition of its college magazine, “**Lakshay.**” Dronacharya college despite being accredited by NAAC as an autonomous body of UGC, has earned very good reputation in this part of the country. The credibility of an institution rests not only on the excellence of the faculty it engages but also on the quality of the students admitted in that institution. If the students of the college equipped with the knowledge, efficiency will automatically be enhanced with a strong faith in their selves.

My message to the management members, college staff and the students is, “Education is not only the process of acquiring knowledge, but also how efficient you are in putting the knowledge into action for handling men and nature around you. The education combines with strength of self –conviction and the depth of thought enables a person reach character excellence. It is a totality of positive attitudes that you develop towards achieving your objective. When all these powers are combined, you get a superlative degree of efficiency, which is termed as human excellence.”

MESSAGE

G. S. Pathania
Managing Director

B. S. Pathania
Executive Director

We feel immense pleasure to pen a few words as prologue to our college magazine LAKSHAY exclusively meant for nurturing the latent writing talent of our students. We would like to congratulate all the contributors and the editorial board for bringing out this magazine. Empowerment of students for their all round development through education is aptly reflected in our college's motto, "Where knowledge is created ,not just communicated." Today education means much more than merely acquiring knowledge. Over the years the college has achieved continuing success in serving the cause of providing quality education to the rural students. The college presents a blend of traditional and modern education where knowledge is imparted to the students so that they may occupy a better place in the modern competitive world and develop all round personalities retaining the beauty of mind and intellect as well as of soul. The college has made its mark in academic, sports and cultural fields. We are optimistic that with whole-hearted co-operation of all the stakeholders, the college will play a meaningful role and scale new heights.

Come on let's give our best and make this institution a modern temple of learning through our diligence, devotion and dedication.

Wishing you all the best...!

FROM THE PRINCIPAL'S DESK

**Principal
Dr. Parveen kumar sharma**

I feel immense pleasure that Dronacharya Post Graduate College of Education has been striving in its “Pursuit of Excellence “since of inception. The college magazine ‘**Lakshay**’ which itself is a reflection of the cognitive domain of tender writers. The purpose of education is self-expression through self realization. It is the job of the teacher to bring out hidden gem like potentialities in student and to make all possible efforts to ensure optimum development. It is the tender plant who makes the destiny of flower. The growth of the tender plant (writer) showed continue uninterruptedly. In this connection, the college magazine ‘**Lakshay**’ provides an ample opportunity for the budding writers of today to show the bright glimpse of tomorrow.

Today, the role of a school is not only to pursue academic excellence but also to motivate and empower its students to be life-long learners, critical thinkers, and productive members of an ever-changing global society. A school must try to provide its students with an atmosphere for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. This can be possible in a holistic, student-centric environment. The talents, skills and abilities of each student need to be identified, nurtured and encouraged so that he/she is able to reach greater heights. Students need to be provided with a platform to think, express and exhibit their skills.

I express my deep sense of appreciation for painstaking efforts to the editorial board and the students for making an outlet to their creative ideas.

“Difficulties were made to be overcome and if the Supreme Will is there, they will be overcome.”

— Aurobindo Ghosh

FROM THE CHIEF EDITOR'S DESK

DR. ASHWANI KUMAR
CHIEF EDITOR

Learning and Knowledge go together by human beings as they imbibe experiences from Social, Economic, Cultural and Physical Environments. Right from their existence on this Earth, the human beings having been marching on the path of perennial quest for knowledge that is deeply related to their creative urge and ability to shape the things they wish to give.

Every year Dronacharya P.G. College brings out its own magazine which is lovingly named as “**LAKSHAY**”. The purpose of this magazine is to provide a platform to the students and staff to give expression to their original thoughts and thus develop an important aspect of their personality.

Our efforts have been to include enough articles, endowed with variety of subjects, in this magazine. But, at the same time, we see that the quality and standards should not ever be let down. I feel delighted to place on record that we have sustained in incorporating good and inspiring articles.

On behalf of the Magazine Team, I would like to thank everybody who contributed. I hope that you all enjoy reading the College Magazine “**LAKSHAY**”.

FROM THE PRESIDENT OF DRONACHARYA PARENT TEACHER ASSOCIATION

संदेश

महोदय,

यह मेरे लिए बड़े ही हर्ष का विषय है कि द्रोणाचार्य शिक्षा महाविद्यालय अपनी वार्षिक पत्रिका लक्ष्य का संस्करण प्रकाशित करने जा रहा है। मैंने इस महाविद्यालय से सत्र 2008–2009 में बी.एड. किया था। आज मैं एक निजी शिक्षण संस्थान में राजनीति शास्त्र के प्रवक्ता के रूप में कार्य कर रहा हूँ। मुझे नहीं लगता की प्रदेश में या प्रदेश के बाहर ऐसा कोई शिक्षण संस्थान हो। ऐसा मैं इसलिए कह रहा हूँ। कि यहाँ जो सिखाया जाता है वे अनमोल है। आज मुझमें एक होंसला है, अपने अध्यापक होने पर गर्व है, क्योंकि यहाँ के प्राध्यापकों द्वारा जो हमें अपने पेशे के प्रति जो भी बताया गया उन्हें सीख कर हम किसी भी प्रकार के वातावरण में काम कर सकते है। मैं और हमारे कई साथ महाविद्यालय में होने वाले कार्यक्रमों में समय–समय सम्मिलित होते रहते है। मैं ईश्वर से यही प्रार्थना करता हूँ की महाविद्यालय इसी तरह से प्रगति के पथ पर अग्रसर होता रहे तथा हमारा सहयोग सदा संस्था के साथ रहेगा।

धन्यवाद।

अश्वनी कटोच

प्रधान, द्रोणाचार्य भूतपूर्व छात्र संगठन।

Mr. Sumit Sharma
Assistant Professor (B. Ed. & M. Ed.)

OVERCOMING DEPRESSION

Suffering from depression is a weakening condition that can make it impossible for you to enjoy your daily existence. If you are plagued with feeling of overwhelming sadness, loneliness, worthlessness and cannot imagine that things will get and better, then you may be suffering from depression. If you want to know how to overcome your depression and enjoy your life again, follow these steps.

Steps

Part 1 of 3: understanding Your Depression

- 1. Recognize that you are suffering from depression:** To overcome your depression, you have to first see if you are feeling the symptoms of depression (Through depression is different for every person). If you think you have depression, see if you are suffering from the following problems:
 - If you feel worthless, helpless or guilty without knowing why.
 - If you are feeling hopeless about most aspects of your life and can't imagine that anything will improve for you.
 - If you feel a decrease in your energy level and are tired no matter you do.
 - If you feel restless at night and have trouble sleeping and waking up in the morning.
 - If you have stopped feeling pleasure in the events that used to make you happy, such as spending time with friends, pursuing your hobbies or being intimate.
 - If there has been a dramatic change in your sleeping habits, such as insomnia, early morning wakefulness or excessive sleeping. If you have lost your appetite or are overeating but cannot stop.
 - If it is much easier for you to be alone than to put the effort into interacting with others.
 - If you prefer to be alone than to interact with others.
 - If you constantly feel irritable for no reason. If you had thoughts of suicide.

- If you are thinking suicide thoughts, seek help immediately.
2. **Seek help from a doctor:** If you are suffering from serious depression, it is time to see a doctor. Even if you are fixed about not taking antidepressant or other medications unless it's necessary, taking to a doctor can help you identify some of the medical causes for your depression. You can search for the life- situation causes after you talk to a doctor.
 3. **Search for a personal cause:** if you have spoken with a doctor and have determined that you do not need or do not want prescription drugs, you should start thinking about some root causes for depression that may be causing you pain in your everyday life. Though your depression may not be caused by the situations in your life, there's a good chance that specific people or events in your life may be making you deeply unhappy. Here are a few things that may be causing or worsening your depression:
 - A failed or unfulfilling romantic relationship.
 - A disappointing family relationship or friendship.
 - An unrewarding career. If you feel deeply unhappy, stifled or even worthless.
 - An undesirable environment. Financial reasons.
 4. **Start a journal:** Starting a journal can help you reflect on your depression and feelings and monitor your sensations throughout the day. Writing in a journal can make you feel more in touch with your thoughts, less alone and more aware of the things that make you happy or unhappy.

Writing in a journal will also help you focus and shut off your mind from all the stressful tasks around you.

Part 2 of 3: Improving Your Life:

1. **Implement some drastic changes (if necessary):** if you have decided there are some serious personal causes that have been contributing to your depression, then it is the time to take a deep breath and start cutting the undesirable elements out of your life.
2. **Maintain a busy schedule:** though you may feel the last thing you want to do is to have a busy schedule because you are feeling so sad and slow, keeping a busy schedule will force you to stay active, focused and thinking about the next thing on your plate. Here are some things you should make time for:
 - Keeping up positive and supportive friendships.
 - Exercise.
 - Pursuing your hobbies and interests.
 - Sometime for yourself to decompress, write in your journal or mediate.
 - Time to do something silly that makes you laugh.
 - Just time to get out of the house. Don't spent all of your time indoors- instead, go out into the sun or do your normal home work or reading in a coffee shop so you feel less isolated.

3. **Maintain healthy relationships:** Though you may feel so worthless that you could not imagine anyone wanting to talk to you, you should rely heavily on your network of friends and family members, as well as your significant other if you have one. Friends will not only help you cope with your depression by talking about it, but they can make you feel more loved and supportive.
4. **Be more generous:** Though you may feel so depressed that you only think about yourself, you should try taking a step back and spend time being generous to the people you love and the people in your community.
5. **Find a new passion:** Finding a new passion can help you feel like you have more of a purpose in life and can give you a reason to wake up in the morning. A passion can be anything you care deeply about, even if it is not something you are good at- -yet. Here are some great ways to find a new passion.
 - Explore your article side. Sign up for a water colour painting, ceramics and drawing or pottery class.
 - Express yourself through writing. Try writing some poetry and a short story. Find a new love for learning a foreign language.
 - Discover a new sport. Take a class in dancing and yoga.
 - Discover your love for reading by starting a book club.

Part 3 of 3: Developing Healthier Habits:

1. **Improve your sleeping habits:** Improving your sleeping habits can make a drastic improvement on your mental health. Work on finding a sleep schedule and a waking up and going to bed routine that works for you.
2. **Exercise:** Exercising for just thirty minutes a day will have a dramatic impact on your physical and mental health. Exercising will make you have more energy and feel more motivated throughout the day.
3. **Improve your diet:** Improving your diet will also help you feel less depressed. Even if you are losing your appetite, you need to be determined to eat three healthy and balanced meals a day. You don't need to try to lose weight or be incredibly health conscious when you are dealing with your depression, but eating healthier food regularly will improve mental and physical state.
 - Don't skip meals—especially not breakfast. Eating three meals a day, will give you the energy you need to stay positive and focused.
 - Add more fruits and vegetables into your diet. Substitute them for sugary snacks or unhealthy junk food.
 - Make sure to eat a balance of fruits, vegetables, carbohydrates and proteins every day.

Think positively:

Being a more positive thinker will help you look at your life and world in a way that fills you with hope instead of despair. To think more positively, you should learn how to recognize your negative thoughts and to fight them with stronger positive thoughts whenever you can. Find at least five things to be grateful for and happy about every single day.

Mrs. Anita Chandel
Asst. Prof. Education Department

Failure Is Life's Greatest Teacher

When we take a closer look at the great thinkers throughout history, a willingness to take on failure isn't a new or extraordinary thought at all. From the likes of Augustine, Darwin and Freud to the business mavericks and sports legends of today, failure is as powerful a tool as any in reaching great success. "Failure and defeat are life's greatest teachers [but] sadly, most people, and particularly conservative corporate cultures, don't want to go there," says Ralph Heath, managing partner of Synergy Leadership Group and author of *Celebrating Failure: The Power of Taking Risks, Making Mistakes and Thinking Big*. "Instead they choose to play it safe, to fly below the radar, repeating the same safe choices over and over again. They operate under the belief that if they make no waves, they attract no attention; no one will yell at them for failing because they generally never attempt anything great at which they could possibly fail (or succeed)."

However, in today's post-recession economy, some employers are no longer shying away from failure—they're embracing it. According to a recent article in *BusinessWeek*, many companies are deliberately seeking out those with track records reflecting both failure and success, believing that those who have been in the trenches, survived battle and come out on the other side have irreplaceable experience and perseverance.

They're veterans of failure. The prevailing school of thought in progressive companies—such as Intuit, General Electric, Corning and Virgin Atlantic—is that great success depends on great risk, and failure is simply a common byproduct. Executives of such organizations don't mourn their mistakes but instead parlay them into future gains. "The quickest road to success is to possess an attitude toward failure of 'no fear,'" says Heath. "To do their work well, to be successful and to keep their companies competitive, leaders and workers on the front lines need to stick their necks out a mile every day.

They have to deliver risky, edgy, breakthrough ideas, plans, presentations, advice, technology, products, leadership, bills and more. And they have to deliver all this fearlessly—without any fear whatsoever of failure, rejection or punishment."

TOP 5 SOFT SKILLS EVERY COLLEGE STUDENT NEEDS

(Asst.Prof. Anish Korla)

1. Collaboration: It is imperative for college students to function efficiently and appropriately in groups, collaborate on projects and accept constructive criticism when working with others. People who succeed only when working alone will struggle in college and beyond, as the majority of careers require collaboration. Students can develop the skills necessary to effectively work with others in numerous ways, including participating in athletics and extracurricular activities. They can also opt to complete team-based projects such as service activities during their later years in high school.

2. Communication and interpersonal skills: A common complaint among employers is that young people do not know how to effectively carry on a conversation and are unable to do things like ask questions, listen actively and maintain eye contact.

The current prevalence of electronic devices has connected young individuals to one another, but many argue it has also lessened their ability to communicate face-to-face or via telephone. These skills will again be important not only in college, where students must engage with professors to gain references and recommendations for future endeavors, but beyond as well.

An inability to employ these skills effectively translates poorly in college and job interviews, for instance. High school students can improve these traits by conversing with their teachers in one-to-one settings. This is also excellent training for speaking with college professors. Obtaining an internship in a professional setting is also a wonderful method to enhance communication and interpersonal skills.

3. Problem-solving: Students will be faced with a number of unexpected challenges in life and receive little or no aid in overcoming them. They must be able to solve problems in creative ways and to determine solutions to issues with no prescribed formula. Students who are accustomed to learned processes, and who cannot occasionally veer off-course, will struggle to handle unanticipated setbacks. Students can improve problem-solving abilities by enrolling in classes that use experiential learning rather than rote memorization. Students should also try new pursuits that place them in unfamiliar and even uncomfortable situations, such as debate club or Science Olympiad.

4. Time management: Whatever structure students may have had in high school to organize their work and complete assignments in a timely manner will be largely absent in college. It is imperative that they be fully self-sufficient in managing their time and prioritizing actions. The ability to track multiple projects in an organized and efficient manner, as well as intelligently prioritize tasks, is also extremely

important for students long after graduation. Students can improve this skill by assuming responsibility in multiple areas during high school – nothing develops an ability to prioritize faster than necessity – or gaining professional employment experience through internships, volunteer work or other opportunities.

5. Leadership: While it is important to be able to function in a group, it is also important to demonstrate leadership skills when necessary. Both in college and within the workforce, the ability to assume the lead when the situation calls for it is a necessity for anyone who hopes to draw upon their knowledge and "hard" skills in a position of influence.

Mr. Sachin Pagrotra

Asst. Prof. Education Department

“A school is a building surrounded by four walls with future inside”. It’s a social institution that reflects the standard of the society. Therefore, good teachers are needed for a good society to exalt and utilize its hidden talents for the fullest possible liftmen and progress. A teacher plays greater role in changing the society and its people in the sphere of academic, social, economic, mental, moral & physical development. Above all, he always keeps his door open for all irrespective of caste & creed, colour & community, high & low, rich & poor. One-step ahead, it ignites the young minds and moulds the pupils to good citizens as well as the good leaders of the nation. Sense of responsibility has a central role to play in shaping our lives and directly reflects in the progress of an individual and nation. Sense of responsibility is a driving force for each and every action.

This magazine is an attempt to nourish the seedlings of this ‘Sense’ in the youth so that it will develop into a big tree of responsibility. The nation’s strength and future is purely dependent on the youngsters, who are the future citizens. This magazine is a reflection of hidden literary talents of the students. It provides an excellent platform to the students to show their creativity.

I wish to acknowledge my heart full thanks to every individual who has contributed their articles in this section. I find articles in this section really enlightening.

Wishing you a happy reading.

**“When we seek to discover the best in other.
We somehow bring out the best in ourselves.”**

Editorial are the best ways to express one’s thinking feeling and emotions. These are the field one can express who can also show his learning ability and intellect. One should know how to show and learn positivity in his life; instead, he should add positivity in his thinking and to subtract negative thinking from his life. We should not be worried about his past. As past is as obstacle and future is a dream, which may or may not be possible to achieve. Everybody should welcome an optimist because it is rightly said “Smile and the world will smile with you, weep and weep alone.”

I greatly acknowledge Sachin Pagrotra for his guidance and for giving opportunity to me.

“An investment in knowledge pays the best interest.”

— Benjamin Franklin

TIME WAITS FOR NO ONE

To realize the value of four years, ask a graduate

To realize the value of one year, ask a student who has failed in final exam

To realize the value of one week, ask an editor of weekly newspaper

To realize the value of one minute, ask person who has missed his train, bus or plane

To realize the value of one second, ask a person who has survived an accident

To realize the value of one millisecond, ask a person who has won a silver medal in Olympics

To realize the value of a friend, loose one

So, realize the value of time, because time waits for no one

Rajni B.Ed.

BRAIN DAMAGING HABITS

1. No breakfast- people who do not take breakfast are going to have a lower blood sugar level. This leads to an insufficient supply of nutrients to the brain causing brain degeneration.
2. Air pollution –The brain is the largest oxygen consumer in our body, inhaling polluted air decreases the supply of oxygen to the brain, bringing about a decrease in brain efficiency.
3. Sleep deprivation- sleep allows our brain to rest. Long term deprivation from sleep will accelerate the death of brain cells.
4. Head covered while sleeping- sleeping with the head covered increases the concentration of carbon dioxide decreases and concentration of oxygen that may lead to brain damaging effects.
5. Working your brain during illness- working hard or studying while sick may lead to a decrease in sharpness of the brain as well as damage the brain.
6. Lacking in stimulating thoughts- Thinking is the best way to train our brain, lacking in brain stimulating thoughts may cause brain shrinkage.

-- Sonam Pathania ,204

WHY NOT A GIRL?

People pray for a long,
But not for a girl
They want a man,
But not a girl
In the mud of education
They go to
Goddess Saraswati
In the mud of money
They go to,
Goddess Laxmi
In the mud of courage
They go to
Goddess Durga
Now

Why do they hesitate to,
Have a devi in
Their family

[Shammi B.Ed]

“ Education is the ability to listen to almost anything without losing your temper or your self-confidence.”

-Robert Frost

TEACHER-A GUIDE OR GURU

Teacher is a guide and guru with a heart of gold.

He is as gentle as a lamb.

To him teaching is a mission not a profession.

Teacher is a man of principles and discipline.

His kingdom and thoughts are high.

He has a sense of duty and responsibility.

He deals with courage and sympathy.

A teacher is the richest and greatest profession in my life.

Anju Bala

ARE WE REALLY MODERN ?

Everybody wants to be called modern today. Every boy and girl likes to wear jeans and t-shirts to prove that he or she is modern. Smoking and drinking by younger's is a fashion today. But the question arises can we become modern only by wearing western clothes? certainly we have taken the wrong view of modernity .There are many more good things in the western civilization which are worth emulating .Today we Call ourselves the people of 21st century ,but in reality ,we are the people of 18th century with narrow mind .There are many social evil and amazingly many superstitions in our society .People are usually seen throwing coin in the river .In case of famine ,drought ,huge amount of money is given to saints and ascetics instead of given relief to the victims . And still we think our selves to be modern? Why?

IMPROVEMENTS IN MID-DAY MEAL SCHEME

Mid-day Meal is a very good and useful scheme for the schools. It is very useful to improve the nutritional health of students due to many factors. But all of us know that every coin has two sides. One side shows that mid day meal is very good and useful but the other side shows that it increases the workload of teachers. The schools with limited teacher's strength mainly affected by this. Mid day meal needs a lot of time or hard work to manage and functioning. The teacher who has the responsibility of organization and managing of mid day meal requires ability and time to do this task. During our research we find that it is not easy to take the responsibility of Middy meal scheme. If the government wants to succeed the scheme without any harm in the quality of education so it is important to establish a separate committee or staff than teaching staff. Because of Mid day meal responsibility the teacher is unable to give extra time and efforts towards teaching. The recruitment of staff for mid day meal also generates employment and economic conditions should be developed.

THE ETHICS OF TEACHING

There is considerable power and authority in teaching. Like doctors and lawyers, teachers are considered experts and are expected to act in the best interests of their constituents. Ethical issues are concerned with the ideas of right/wrong, duties/obligations, rights/responsibilities.

Eight general ethical principles that one ought to consider in thinking through an ethical dilemma:

1. Respect for the autonomy of others: as long as actions do not interfere with the rights and welfare of others, value free expression of appropriate ideas, student discovery, and a comfortable environment conducive to learning.
2. Doing no harm (physical or emotional): do not tolerate unethical behaviors and seek consultation if you are unsure.
3. Benefit to others: accept responsibility for student welfare, deliver services students deserve and recognize our roles as models.
4. Fairness and equity: be objective; treat others as we would like to be treated.
5. Fidelity and honesty: exhibit integrity and follow through. Use informed consent procedures when applicable.
6. Dignity: consider the dignity of all and respect diversity.
7. Caring: be compassionate toward peers and students; exercise professional duties with care.
8. Doing one's best: value the pursuit of excellence and take pride in one's work.

“Education is the ability to listen to almost anything without losing your temper or your self-confidence.”

-- Robert Frost

TEACH A GIRL: EDUCATE A NATION

Let me begin with the famous Quote Mahatma Gandhi if you *educate* a *woman*; you *educate* a generation. If she is educated and enlightened about everything she can take the family forward socially, economically and of course, morally. If a family progresses this way, a district progresses, a state progresses, and finally the country progresses i.e. empowering the Girl Child is the Best way to empower the Nation".

It is quite a well known fact that wisdom begins at home. Thus, it is very necessary for the women of the family to be refined and wise. It is said by society that girls are no way inferior to boys. But what are they getting from the society? A whole range of discriminatory practices-including female foeticide, female infanticide, early marriage and dowry, which have buried the future of girl child. It seems very difficult to empower the girl child. Our society is still suffering from many weaknesses. Intend of giving them education, they are being subjected to sufferings under likes of Purdah System. Some are killed in the womb, some at the time of birth. Kalpana Chawala, Kiran Bedi, and Sonia Gandhi and so on...everyone has earned a name in the society. For the success of any person, education plays an important role but only few of them get the opportunity. She must confirm, in her actions, that she is a person of reason, a person of will, a person of affection, and a person who has a mission to carry out and she should prove that she has the ability to take part in life for which education is must and if she is empowered she will spread it to her family there by to the society which will in turn develop a cultured nation. Empowering the girls is more important as she not only builds the home, but all routine responsibilities are completed by her. Today's girl child will be the mother of tomorrow. That is why, empowering the girl child is the best way to empower the nation.

FROM THE DESK OF FACULTY OF THE COLLEGE

Dr. Pallvi Pandit
(Assistant Professor)

HOW TO BE PATIENT

It has never been easy to be patient, but it's probably harder now than at any time in History. In A world where messages and information can be sending across the world instantly, everything is available with only a few clicks of the mouse. Fortunately, patience is a virtue that can be cultivated and nurtures over time. You will be pleasantly surprised by how relaxation and peace of mind can impact the quality of your life. Do you ever feel the urge to step in and form your child's opinion, tastes and to complete tasks that they seem to be doing, "just too slowly"? if so, your teaching your child a few unhelpful lessons, including that the child must rely on you to make decisions, that impatience is a virtue and that the child's carers will always fix things rather than having to take on personal responsibility. Ultimately, impatience with a child risks lessening their independence and understanding. Learning to let go despite the messes, frustration and mistakes that will inevitably arise is a vital skill when caring for or being with children. Whether you are raising children, or working or volunteering with them, a little patience goes a long way.

Steps:

Take a little time to think about the purpose and beauty of patience: Patience gives us time to reflect, to slow down and think about the world and the things were doing. It's a way of enjoying what were experiencing rather than always rushing toward an end just to make room for the next rush. Patience allows us to enjoy the process of living. Patience also enables others to accept us into their lives through our faithful, continued presence and enduring respect for them. When we accept the importance of patience in our lives, it becomes easier to be patient

with others too. Through respecting the rhythm of ourselves and others, being patient presents an opportunity to give of ourselves rather than expecting others to conform to our wants.

Ask the child what he or she wants to have, done, or be: Resist the impulse to have things the way you had liked them to be. Even a very young child can indicate their likes and dislikes; allowing these to express themselves at appropriate occasions is important. As part of asking for the child's response so that it's clear you understand.

Resist the temptation to change the child's mind about a future occupation. If little Johnny says he says he wants to be a window washer when he grows up, let it be. If you constantly interrupt with something like, "oh he's just saying that. We all know he'll be a doctor when he grows up", he'll start to resent the implications of being pushed toward a designated career.

Balance the wants with realities. If you think that what the child is asking for is unreasonable, unaffordable, or a sign of, "consumerisms", take time to talk it through rather than simply saying no or choosing for them without discussion. You don't have to reason with the child but it helps to give a brief explanation. It helps even more if you show by example what you are asking the child to follow.

Be kind to your children and they will learn to treat you and others kindly by your example: Your example will be helpful to your children throughout their life. They will also have learned to make wise choices by the choices you allowed them to make. Now they will be kind to their children and teach them to *make wise choices*.

1. If you do not allow children to do things their way, this takes away their autonomy and potentially stunts their ability to discover things for themselves. Allow a child to try new things often, so as to give them a sense of *self-trust* and personal responsibility.
2. Naturally, keep safety and propriety in mind; it is entirely appropriate to step in and change the course of a child's behavior or activities where safety or appropriateness has been compromised: this is simply part of being responsible guardians.

Be graceful for your children and for all children: When the daily chores mount up and everyone is rushing about, sometimes it is easy to take one another for granted. Taking time now and then to *express your gratitude* for your children will help you to respect them for the unique, individual beings they are, and helps them to see the importance valuing others openly ever having or doing what they have asked for. Helping them to understand this time perspective is far kinder than simply saying no and not explaining any further. Willing to do the things, the child's way when possible. While their attempts might sometimes cause you *frustration* and worry, it is important to allow children to show you their way of doing things. If your child offer to help with making dinner, don't think of the mess they'll make. Accept that

there will be a mess but realizes that they are learning how to do something that will one day be of great importance as a skill (and eventually, they're learning from your other children, you will learn their character better, and see both their strengths and their weakness, giving you an opportunity to help them nurture the best talents and to learn to manage their weaknesses.

Show goodwill and interest in children: Where possible, try to please them. This isn't about being a doormat for the child's commands. It's about respecting the wants and requests of the child within the appropriateness of the situation. Help the child to learn the difference between making a request and making a demand and what the consequences are. It is also important to help them understand the importance of delayed gratification, teaching them that what you do say no, sometimes this is about waiting, rather than.

Resist the temptation to control children: Children are ready to trust and soak up information from the people who care for them and spend time with them. Trying to control children lacks respect to insert your way of thinking and preferences onto them. Give them space to grow into the individual that they are.

1. Patience allows you to be the ideal teacher. Instead of seeking to control, patience allows the child to grow at their own pace, rather than being pushed into doing things before being ready. For example, Dino de Laurentiis did not speak until he was 5. Despite the worries of others, his mother took this in her stride, believing he'd speak more than enough when he was ready. And so he did.
2. Try this: see if you can say 'yes' to the child, before you say 'no'. if your first instinct is to say 'no', question this. Actually, why not? Are you just being controlling, or is there a good reason to deny their request?

Pick your battles carefully: Most choices are not a life and death situation. Give children a rope long enough for them to safely learn on their own. Mistakes are a learning experience.

1. If you feel that a situation is getting out of hand with a child, take a step back and create space between you and the child. This breathing space is important for both of you, after which you can express your thoughts and establish boundaries when you are collected, rather than channeling your concerns through frustration.

Love being with children: sometimes our greatest impatience arises when we allow our own endeavors such as work, personal pursuits, hobbies, sports etc., to get in the way of spending time with children. Whether we are parenting, caring, teaching, working and volunteering with children, nobody is immune from impatience at times. If you feel any sense of *resentment* when being around children for 'holding up' the things you want to do, or you find yourself 'half present' instead of giving your full attention, than being patient can restore your joy of spending time with children. Let go of the impatience and realize that time spend with children is precious. It is a time during which you can learn great deal about seeing the world through

fresh eyes. It can also be a time when you realize that you can make a big difference in the life of a child by teaching or showing them something new, and by helping them to love and respect themselves all the more.

1. Recognize that patience is a form of kindness. Giving time is giving kindness a chance. By removing the pressure of the other 'more pressing' things you feel, you show your child that there is nothing more important, nothing kinder, than spending time with them.
2. A child who is given time with an adult soaks up the message that the busyness of adult life can wait, that childhood is a good time, and that there is no need to grow up too quickly. The point of life is being with one another, a gift that can only be imparted to a child in the doing.

Reaching Your Potential

The same holds true for personal quests, whether in overcoming some specific challenge or reaching your full potential in all aspects of life. To achieve your personal best, to reach unparalleled heights, to make the impossible possible, you can't fear failure, you must think big, and you have to push yourself. When we think of people with this mindset, we imagine the daredevils, the pioneers, the inventors, the explorers: They embrace failure as a necessary step to unprecedented success. But you don't have to walk a tightrope, climb Mount Everest or cure polio to employ this mindset in your own life.

When the rewards of success are great, embracing possible failure is key to taking on a variety of challenges, whether you're reinventing yourself by starting a new business or allowing yourself to trust another person to build a deeper relationship. "To achieve any worthy goal, you must take risks," says writer and speaker John C. Maxwell. In his book *Failing Forward: Turning Mistakes into Stepping Stones for Success*, he points to the example of legendary aviator Amelia Earhart, who set several records and achieved many firsts in her lifetime, including being the first female pilot to fly solo over the Atlantic Ocean.

Although her final flight proved fateful, Maxwell believes she knew the risk—and that the potential reward was worth it. "[Earhart's] advice when it came to risk was simple and direct: 'Decide whether or not the goal is worth the risks involved. If it is, stop worrying.' " Of course, the risks you take should be calculated; you shouldn't fly blindly into the night and simply hope

for the best. Achieving the goal or at least waging a heroic effort requires preparation, practice and some awareness of your skills and talents.

Mind is not a Barren piece of land. If any of the thoughts that come your way so spontaneously and effortlessly is given due consideration, it will grow and flourish just like a seed germinates. "Lakshay in its true sense is an endeavour to express those efforts of the fruitful minds. The current issue of "LAKSHAY" is an extract of the combined efforts and dedicated creative souls of the flowering composes of our institution which reflects their creativity and their imaginary flights.

I express my sincere gratitude to Mr. Ashawani Kumar, Chief Editor of Lakshay for the trust, reposed; motivation and constant guidance that enabled us yo materialize this effort. With hard work, sincerity and dedication of all the members of the institution. We are sure to scale heights, newer fields and newer vision.

Student Editorial

Ms. Jyoti Dogra
(1603)

It gives me great pleasure in sending my best wishes to Dronacharya college magazine of science department. It is platform for students to exhibit their work and contribute to sharing of knowledge. The essential purpose of Dronacharya college magazine is to inform, engage, inspire and entertain a diverse readership- Including alumni, faculty, staff, students, parents and other friends of Dronacharya College.

By maintaining the respect and interest of its reader, the magazine aspires ultimately to inform their opinion of the college and to strengthen their commitment to its welfare.

Reading this magazine would definitely be an inspiration and motivation for all students and staff to contribute even more to the forthcoming issues.

I hope that everyone would continue to give their full efforts to keep the momentum and continue to enhance the standards of the magazine. The pride of every student and staff would be in his/her college. A college may reach heights of glory but without materials like a college magazine, the outside world may not know of it.

Tips for Adjusting to Your New College Life

Shikha Koundal

Asst.Prof.Education Department

When you head off to college, you'll be making a lot of changes in your life that you might not have expected your life changes completely when you head off to college. Instead of having parents around to remind you to do your homework and get a decent amount of sleep, you're suddenly completely on your own, with a lot of freedom and a whole new world of opportunities to embrace.

Be Open to New Experiences

New place, new roommates, new situations. Everything is different when you first get to college. A surefire approach to handling these changes is to be open-minded. Expect new changes and situations to take place regularly and be open to meeting new people and listening to different points of view. College isn't just about learning facts and theories from textbooks. A large part of college involves exploring new subjects, finding friends and meeting people from different backgrounds.

Connect with Your Peers

You might be in a new and strange place, but you're not alone. Strike up a conversation with the person sitting next to you in class or talk to the people who live in your dorms. Don't stress about forming friendships right away, it will probably take some time before you find the right crowd for your personality and interests. In the meantime, enjoy meeting new people and get used to reaching

Join a Group

One way to make college feel more like home is to do some of the activities you enjoy or find clubs that meet your interests. College campuses are filled with student clubs and

organizations, club sports teams and other groups, so chances are good you'll find one that fits your needs.

Manage Your Time

It's easy to get carried away with all the extra-curricular activities available on campus, but don't forget that you also have to study. Review your syllabi or ask your instructor to find out the deadlines for assignments and exams in each of your courses then use an online (or paper) calendar or planner to keep track of those deadlines. Be sure to schedule in time to study, so that you don't wait until the last minute - a practice that doesn't work so well in college.

LIFE OF A SCIENCE STUDENT

A science student is a compound formed by combination of tension, fear and worry indefinite proportion. He can't have sound sleep because the ultrasonic sound of physics and difficult words of biology are always buzzing near his ear.

Thus, like a bat he is thinking of his studies even in his bed, though the brocks may be far away from him. Thus, he cannot have an oscillatory motion in the 'mall' like his fellow student of other subjects.

The science student learns everything on the basis of absorption but as soon as he enters the examination hall, the brain gets heated up due to fear of friction. So, others phenomenon like evaporation and hybridization occur simultaneously.

The results are a mixture of success for some and failures of others.

Failures should be treated as stepping stones to success. Students facing failures should not give up and try hard for next time. We should not lose faith in God and should have self confidence, concentration and be able to develop an attitude of positivity.

SECRETS TEACHERS DON'T TELL

IN PHYSICS:

Be dynamics in thoughts,

Be static in mind,

Be optimistic at heart,

Be sound in character,

Then you will be

A magnet everywhere.

IN GEOMETRY:

With God as the centre.

With love as the radius.

Draw the circle of life.

IN MATHEMATICS:

Add your friends,

Subtract your enemies,

Multiply your joys,

Divide your sorrows.

Meena Kumari

B. Ed. (1602)

THEORY OF SLEEP IN CHEMISTRY

Occurrence:

It occurs in all parts of the world.

But, in India it occurs in excess.

Chemical reaction

It is prepared through exertion.

Heat and cold acts as catalyst.

In the summer, it is prepared as follow:-

Cool place + soft bed —————> sleep + dream + snore.

Physical properties:

1. It is a sweet treat.
2. It is treasure house of dreams.

Chemical properties:

1. It gives anger as product when it treated with water.
2. It evaporates in the presence of noise.

Uses:-

1. It is used for relaxation our body.
2. It is used to avoid to do any work/study.

Precautions:-

1. Disturbance must be avoided.
2. The boss should be away.

GLOBAL WARMING IS NOT DUE TO SUN

A new analysis of data on sun's output in last 25 years of twentieth century has put the nation to rest. The data showed that even through the sun's activities have been through the sun's activities has been decreasing since 1985, global temperatures have continued to rise at an accelerating rate.

Global temperatures are going up by 0.2°C per decade and top ten warmest years on record have happened in last past 12 years, since 100, mean global atmospheric temperatures has risen by 0.8°C and sea; eve; 10-20cm. One way that sun affects the climate is through clouds.

The sun's magnetic field earth from its energy particles called cosmic rays. The rays help to form a cloud that reflects sun's energy back into space and cool the planet. So, if sun's magnetic field is high, they should be fill off in cosmic rays fewer clouds and more warming.

But Professor Lockwood's data showed that sun's magnetic field has declined since 1985, even the worlds heats up!

SAVE OUR EARTH

Look around, look around,
Look around and see,
The damage we have done,
To you and me,

But the earth is most hurt,
Which is like your pains and hurt?
Cars factories, planes and acid rain
That gives the ozone layer many pains

Trees are dying,
And the earth is crying,
For the deeds that are very bad,
But there is light,

In the colour of white,
I hope which can bring,
The earth back as it was
From the time of its birth.

NAVIC – INDIA’S OWN NAVIGATIONAL SYSTEM

India’s own navigational system, the set-up for which was completed on Thursday with the launch of the seventh and final satellite, will be called NAVIC (navigation with Indian constellation), prime minister Narendra Modi announced after the launch.

The seventh and final satellite of Indian regional navigation satellite system, the IRNSS 1G , was launched into a sub geosynchronous transfer orbit with a perigee (nearest point to earth) of 284km and an apogee (farthest point to earth) of 20,657km . The satellite was launched on board the polar satellite launch vehicle which took off from the sriharikota launch pad at 12:50 pm. With this launch, the IRNSS constellation of seven satellites is now complete. this will allow the Indian space research organization (ISRO) to focus on the process of designing front end chips which will be similar to the global positioning system (GPS) operated by the united states with 24 satellite and the Glonass, Galileo & Beidou system of Russia , Europe and china.

All satellite will undergo stabilization testing and verification of their performance over the next few months before being pushed into use, according to ISRO officials.

An area of 1,500km from Indian boundaries will be covered under the navigational system. The prime minister invited other countries to make use of this system as well. We have seven neighbors who rely on technology provided by the countries.

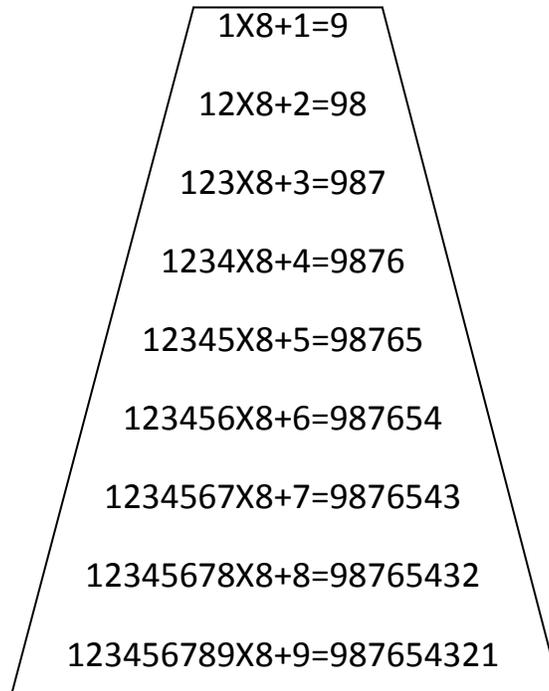

We are now one of five countries with our own navigational system. Today we are free of dependence on other countries for navigation. Our planes will be able ease and accuracy; we can plan disaster relief better and with our own technology.

Explaining the name NAVIC , Mr. Modi said the system was dedicated to India’s mariners and fishermen who have been navigating using the sun and stars as way points for hundreds of years.

KNOW ABOUT SNAKE

There are 2900 of snakes of these 375 are Venomous snakes are elongated; limbless flexible reptiles. Some species of snakes are non-poisonous is some are poisonous due to the presence of poison apparatus like poison glands, fangs etc.

Behaviour : snakes are ectotherms, means they must regulate body temperature externally by running themselves snakes hibernate during the winter.

Non – poisonous snakes species like: Indian rat snake, common cat snake check red keel back, rock Python (Ajgar) common wolf snake, sand Boa etc

Common poisonous snake in India are:

Cobra, krait & sea snakes

Cobra : it is highly venomous snakes, that expand the neck ribs to form a hood, cobras are found in warm regions

It kills several people every year, because it visits houses at twilight to catch rats.

In our state H.P the species of cobra occurs, is scientifically which is black cobra, which is most poisonous snake of H.P

Symptoms of Cobra Snake bite:

Poison of snake is called venom. The venom of cobra acts mainly as a neurotoxin blood and cell destroyer. Neurotoxin paralyses the respiratory centre in the chief cause of death. Other effects are loss of clotting power of blood and destruction of red blood cell. Because poison of cobra is most virulent, so death result within a few hours due to failure of respiration (as physia)

Krait: The common Indian krait is scientifically known as Bungarus Coculeus. It grows to a length of 12 meters. It is nocturnal and of a placid temperament, biting usually only under provocation. Many instances are record of people sleeping on the ground being bitten when unknowingly rolling on or placing a leg or hand in their sleep on a placing a leg or hand in their sleep on a krait moving near by.

Symptoms:

The venom is more toxic than that of cobra it cuts both as a neurotoxin & haemotoxin paralysing the respiratory centre and centres concerned with the lips, tongue throat and voice phrenic nerves. The major cause of death is asphyxia through paralysis of respiratory centre

Cure of snake bite

The best cure for snake bite is an antivenom serum or antivenin which is injected into the body of the victim to counteract snakes due to different antivenoms are required against different snakes due to difference in the qualities of their venoms.

Snake antivenoms are produced by extremely small amounts of say, tiger snake venom are injected into huge Percheron horse on a regular basis over a long period of time. The amounts are so small that this produces antibodies to counteract the foreign substance in its system. After some 10-12 months of this immunological conditioning, a small proportion of each horse's blood is removed and the plasma is extracted. This plasma contains the antibodies which, when injected into a snake bite victim, will neutralize snake venom. 8

LIFE IS MATHEMATICS

Life is actually mathematics and, if you don't believe me then look upon the following statistics. Where me friends we add simply subtract the bad our life circle has a radius s , which is good for the studies where happiness we square. To solve our problem, we dare .There are sorrow to divide in order to keep healthy, wealthy and wise.

Like the vertices of a triangle are connected. To do the best every day is selected, we do good deeds.

Thus, you will lead a happy life smile at others, in certain get smiles.

Did You Know?

Brain Damaging Habits

7. No breakfast- people who do not take breakfast are going to have a lower blood sugar level. This leads to an insufficient supply of nutrients to the brain causing brain degeneration.
8. Air pollution –The brain is the largest oxygen consumer in our body, inhaling polluted air decreases the supply of oxygen to the brain, bringing about a decrease in brain efficiency.
9. Sleep deprivation- sleep allows our brain to rest. Long term deprivation from sleep will accelerate the death of brain cells.
10. Head covered while sleeping- sleeping with the head covered increases the concentration of carbon dioxide decreases and concentration of oxygen that may lead to brain damaging effects.
11. Working your brain during illness- working hard or studying while sick may lead to a decrease in sharpness of the brain as well as damage the brain.
12. Lacking in stimulating thoughts- Thinking is the best way to train our brain, lacking in brain stimulating thoughts may cause brain shrinkage.

पीपल के अंहकार की सजा

एक बहुत ही घना जंगल था। उस जंगल में एक आम और एक पीपल का भी पेड़ था। एक बार मधुमक्खी का झुण्ड उस जंगल में रहने आया, लेकिन उन मधुमक्खी के झुण्ड को रहने के लिए एक घना पेड़ चाहिए था। रानी मधुमक्खी की नजर एक पीपल के पेड़ पर पड़ी तो रानी मधुमक्खी ने पीपल के पेड़ से कहा, हे पीपल भाई, क्या मैं आपके इस घने पेड़ की एक शाखा पर अपने परिवार का छत्ता बना लु?

पीपल को कोई परेशान करे यह पीपल को पसंद नहीं था। अंहकार के कारण पीपल ने रानी मधुमक्खी से गुस्से में कहा, हटो यहाँ से, जाकर कहीं और अपना छत्ता बनालो। मुझे परेशान मत करो।

पीपल की बात सुन कर पास ही खड़े आम के पेड़ ने कहा, पीपल भाई बना लेने दो छत्ता। ये तुम्हारी शाखाओं में सुरक्षित रहेंगी। पीपल ने आम से कहा, तुम अपना काम करो, इतनी ही चिन्ता है तो तुम ही अपनी शाखा पर छत्ता बनाने के लिए क्यों नहीं कह देते? इस बात से आम के पेड़ ने मधुमक्खी रानी से कहा, हे रानी मक्खी, अगर तुम

चाहो तो तुम मेरी शाखा पर अपना छत्ता बना लो।

इस पर रानी मधुमक्खी ने आम के पेड़ का आभार व्यक्त किया और अपना छत्ता आम के पेड़ पर बना लिया। समय बीतता गया और कुछ दिनों बाद जंगल में कुछ लकड़हारे आए उन लोग को आम का पेड़ दिखाई दिया और वे आपस में बात करने लगे कि इस आम के पेड़ को काट कर लकड़ियां ले लिया जाये।

वे लोग अपने औजार लेकर आम के पेड़ को काटने चले तभी एक व्यक्ति ने ऊपर की ओर देखा तो उसने दूसरे से कहा, नहीं, इसे मत काटो। इस पेड़ पर तो मधुमक्खी का छत्ता है, कहीं ये उड़ गई तो हमारा बचना मुश्किल हो जायेगा।

उसी समय एक आदमी ने कहा क्यों न हम लोग ये पीपल का पेड़ ही काट लिया जाए इसमें हमें ज्यादा लकड़िया भी मिल जायेगी और हमें कोई खतरा भी नहीं होगा। वे लोग मिल कर पीपल के पेड़ को काटने लगे। पीपल का पेड़ दर्द के कारण जोर-जोर से चिल्लाने लगा, बचाओ-बचाओ-बचाओ.... आम को पीपल की चिल्लाने की आवाज आई, तो उसने देखा कि कुछ लोग मिल कर उसे काट रहे हैं।

आम के पेड़ ने मधुमक्खी से कहा, हमें पीपल के प्राण बचाने चाहिए..... आम के पेड़ ने मधुमक्खी से पीपल के पेड़ के प्राण बचाने का आग्रह किया तो मधुमक्खी ने उन लोगो पर हमला कर दिया, और वे लोग अपनी जान बचा कर जंगल से भाग गए।

पीपल के पेड़ ने मधुमक्खीयो को धन्यवाद दिया और अपने आचरण के लिए क्षमा मांगी। तब मधुमक्खियो ने कहा, धन्यवाद हमें नहीं, आम के पेड़ को दो जिन्होंने आपकी जान बचाई है, क्योंकि हमें तो इन्होंने कहा था कि अगर कोई बुरा करता है तो इसका मतलब यह नहीं है कि हम भी वैसा ही करे।

अब पीपल को अपने किये पर पछतावा हो रहा था और उसका अंहकार भी टूट चुका था। पीपल के पेड़ को उसके अंहकार की सजा भी मिल चुकी थी।

शिक्षा:- हमे कभी अंहकार नही करना चाहिए। जितना हो सके, लोगो के काम ही आना चाहिए, जिससे वक्त पड़ने पर तुम भी किसी से मदद मांग सको। जब हम किसी की मदद करेंगे तब ही कोई हमारी भी मदद करेगा।

Ms. Diksha

(सहायक प्रवक्ता)

ये मत सोचो कि...

ये मत सोचो कि तुम्हारे पास क्या नहीं है;

बल्कि, उसे सराहो जो तुम्हारे पास है और जो हो सकता है।

ये सोच कर दुखी मत हो कि तुम क्या नहीं हो;

बल्कि, ये सोच कर खुश हो कि तुम क्या हो और क्या बन सकते हो।

ये मत सोचो कि लोग तुम्हारे बारे में क्या कहते हैं;

बल्कि, ये सोचो कि तुम खुद अपने बारे में क्या सोचते हो और क्या सोच सकते हो।

ये मत सोचो कि कितना समय बीत गया;

बल्कि, ये सोचो कि कितना समय बाकी है और कितना मिल सकता है।

ये मत सोचो कि तुम फेल हो गए;

बल्कि, ये सोचो कि तुमने क्या सीखा और तुम क्या कर सकते हो।

ये मत सोचो कि तुमने क्या गलतियाँ कीं;

बल्कि, ये सोचो कि तुमने क्या सही किया और क्या सही कर सकते हो।

ये मत सोचो कि आज कितनी तकलीफ उठानी पड़ रही है;

बल्कि ये सोचो कि कल कितना शानदार होगा और हो सकता है।

ये मत सोचो कि क्या हो सकता था;

बल्कि, ये सोचो कि क्या है और क्या हो सकता है।

ये मत सोचो कि कप कितना खाली है;

बल्कि, ये सोचो कि कप कितना भरा है और कितना भरा जा सकता है।

ये मत सोचो कि तुमने क्या खोया;

बल्कि, ये सोचो कि तुमने क्या पाया और क्या पा सकते हो।

सम्पादिका की कलम से

अंजलि पठानिया (सहायक प्रवक्ता)

सोच तेरी तेरे साथ चली जाएगी
कुछ तो ऐसा लिख जा कि
तेरी याद तेरे जाने के बाद भी सबको आएगी ।
नमस्कार,

प्रिय पाठको द्रोणाचार्य प्रत्येक वर्ष अपनी पत्रिका में नए लेखको को अपनी प्रतिभा और कोशल को सबके समक्ष रखने का एक सुनहरा मोका देता है । महाविद्यालय की पत्रिका महाविद्यालय का दर्पण होती है क्योंकि पत्रिका में लिखे लेखो से ज्ञात हो जाता है महाविद्यालय से संबंध रखने वाले लोगों की सोच कैसी है । पत्रिका को सफल बनाने के लिए महाविद्यालय के प्रत्येक सदस्य ने भरपूर सहयोग किया है।

मैं पत्रिका के मुख्य संपादक श्री अश्वनी कुमार जी की आभारी हूँ, जिन्होंने मुझे पत्रिका के हिन्दी व संस्कृत विभाग की संपादिका का कार्यभार सौंपा तथा साथ ही मैं सभी नवीन लेखको का ब धन्यवाद करुगी ,जिन्होंने अपनी प्रतिभा द्वारा हिन्दी तथा संस्कृत विभाग आकर्षण और उत्कृष्ट बनाया ।

अपनी सोच को बुलन्दियों पर लेकर जाना है ,
अपनी कथनी और करनी को एक बनाना है ।
हँसते हुए मुश्किलों व चुनौतियों को झेल ,
अपनी मंजिल की तरफ बढ़ते जाना है।

चुगली करने वालों के लिए जन्नत के दरवाजे बन्द

किसी के पीठ पीछे उसकी बुराई करना या चुगली करना इंसान को सात्विकता से दूर ले जाता है। वैसे तो यह आदत अधिकतर लोगों में होती है और मौका मिलते ही प्रकट भी हो जाती है। बड़ा आसान होता है किसी की बुराई करना और उतना ही कठिन होता है स्वयं पर संयम रखना। एक गुरुकुल में कुछ शिष्य गुरु से शिक्षा ग्रहण कर रहे थे। किसी कारणवश देर रात तक जागना हुआ और थक कर सभी शिष्य सो गए। सुबह होने से पहले की जाने वाली ध्यान क्रिया के वक्त कुछ शिष्य सोते रह गए और ध्यान के लिए नहीं पहुंच पाए। गुरु जी के पूछने पर एक शिष्य बोला – वे लोग बड़े आलसी हैं। उन्हें तो गुरुकुल और गुरु दोनों की ही फ़िक्र नहीं है। ऐसे लोगों को सजा मिलनी चाहिए। तब गुरु जी ने उसे बीच में ही रोक कर कहा - मैंने तो सिर्फ पूछा था, तुमने तो उनकी चुगली का पिटारा ही खोल दिया। इससे तो अच्छा था कि तुम भी सोते ही रहते, कम से कम एक गुनाह से तो बच जाते। भगवान उन लोगों से खुश नहीं होता जो पीठ पीछे चुगली करते हैं और जो चीज़ भगवान को बुरी लगती हो, वह भला इंसानों को कैसे अच्छी लग सकती है। इसलिए हर इंसान को इस बुरी आदत से छुटकारा पाने की कोशिश करनी चाहिए। चुगली की आदत बहुत लोगों में देखने को मिलती है, परन्तु सबका ढंग अलग - अलग होता है। कुछ तो बहुत ही शालीन होते हैं, बहुत सोच - समझकर योजना बनाकर अपना काम करते हैं। कुछ लोग सामने तारीफों के पुल बांधते हैं और सामने से हटते ही शिकायत शुरू कर देते हैं। जब आप के सामने कोई व्यक्ति जरूरत से ज्यादा तारीफ करे तो समझ जाना चाहिए कि वह अपने आप को चुगली के लिए तैयार कर रहा है, बस अवसर की तलाश में है। कुछ लोग हर किसी में बुराइयाँ व कमियाँ ही ढूँढते हैं। आम आदमी की बात तो जाने दीजिये, शिक्षित वर्ग भी इससे पीड़ित नजर आता है। कभी - कभी तो विद्वान जिन्हें हम आदर व सम्मान की दृष्टि से देखते हैं, वे भी इस बीमारी से ग्रस्त दिखाई देते हैं। मनोवैज्ञानिक कहते हैं चुगली करना अपने दिल की भड़ास निकालने का एक अच्छा माध्यम है। यह स्वयं को ऊँचा और दूसरे को नीचा दिखाने का भी एक ढंग है यानि चुगली करने वाले का अपनी भावनाओं पर नियंत्रण नहीं होता और वह हीनता की भावना से ग्रस्त होता है। इसलिए वह अपने अवगुणों को देखने के बदले अन्य लोगों पर दोषारोपण करता है और उनमें कमियाँ निकालता है। इसका मतलब यह नहीं है कि किसी की कमी पर कभी उंगली रखनी ही नहीं चाहिए। इसके लिए आलोचना - समालोचना एक अच्छा तरीका है। इसमें आलोचक को मर्यादा में रहकर अपने विचारों को व्यक्त करना होता है। ऐसा व्यक्ति समाज के प्रति अपने दायित्व का निर्वाह करता है। इसलिए कहा गया है कि “निदंक नियरे राखिये” पर कैसे निदंक? ऐसे निदंक जो सच्चे व समझदार हों। यहाँ ध्यान देने योग्य है कि आलोचक और चुगलखोर में अंतर है। बड़ा आसान होता है दूसरों में गलतियाँ निकालना, किन्तु बहुत कठिन है गलतियों को सुधारने के उपाय करना। यहाँ आलोचक का काम आरम्भ होता है। केवल चुगली करना खोखली मानसिकता की निशानी है। दुनिया के सभी धर्मों और सभ्य समाजों में चुगली को पाप

और चुगलखोरों को पापी समझा गया है तथा इस अवगुण से छुटकारा पाने की सलाह दी जाती है |भगवान भी चुगली करने वालों से नाराज़ रहता है और उनके लिए जन्नत के दरवाजे बन्द कर देता है

बनिता Rana

अनार ही बीमार

चिन्ता हुई तो चिंतन किया,
कुछ सुझा मंत्रण किया,
आज फिर सोच की गली में
अभाव ने निमंत्रण दिया।

जवाब जानती हूँ,
इसलिए अब सवाल नहीं पूछती।
जो बचा है बस अब सम्भाल लिया,
इसलिए अब हिसाब भी नहीं पूछती।

जानती हूँ तुम्हारी बातों की गुल्लक
कुछ फोड़ेगी ज़रूर,
पर अब फर्क नहीं पड़ता,
क्योंकि टूटने से फूटना बेहतर लगने लगा है।
और वैसे भी लफ़्ज़ों के घेरे में
एहसास कहाँ छुपते हैं,
सुना है आजकल तेरी गली में,
अनार बहुत बिकते हैं।

बीमार तो इतने नहीं,
फिर तुझ पे ये कौनसा जुनून तारी है,
शायद बीमारों की फेहरिस्त में,
अब अनार की ही बारी है।

कन्या भ्रूण हत्या

1. एक माँ की यह कहानी है जो जो आप सभी को सुनानी है,जब माँ ने था धारणा गर्भ किया ,अपने बचे का स्पर्श महसूस किया ,मानो माँ की दुनिया ही बादल गई ,खुशियां ही खुशियां जीवन में बिखर आई ।
- 2.लड़का हो या लड़की माँ ने कब सोचा था ,उसके लिए तो उसका बचा ही सब कुछ था ,परंतु देखो भाग्य ने ये कैसे लीला रचाई ,और लड़की हुए तो कन्या भ्रूण हत्या करवाई।
- 3.तो लड़की पूछती है उस माँ से ,माँ तू मुझे इस धरती पर तो लाई होती,खूब नाम रोशन करती तेरा ,कम से कम ऐसी मोत न आई होती।
- 4.माँ अगर सभी माताओं ने कन्या भ्रूण हत्या करवाई होती तो क्या ,कल्पना जैसी महान हस्ती इस दुनिया में आई होती?

मधु बाला

अनुक्रमांक -1701

इसे मत पढ़िये

न जाने क्यों मनुष्य का स्वभाव है की जिस को मना किया जाए उसे अवश्य करेगा। अब बसो की बात लिजिये। बसो की सीटो में लिखा होगा केवल "महिलाओं के लिये" जबकि आपने अधिकतर देखा होगा की पास में महिला खड़ी रहे सीट पर पुरुष टांगे पसारे बैठे रहेंगे।

बसो में प्रायः मोटे-मोटे स्ब्दो में लिखा होगा "धूमपान वर्जित है।" लेकिन जो मजा बसो और सिनेमा घरों में सिगरेट पीने में आता है वह भला घर में पीने पर कहा? प्रायः आपको सड़कों पर "NoParking" पर ही गाड़ियाँ खड़ी मिलेगी।

'थूकिए मत' परंतु लोग थूक कर आगे चल देते हैं और "UseMe" का खाली डिब्बा एक कोने में पड़ा रह जाता है। पुस्तकालय में लिखा होता होगा "शांत रहिए," पर बच्चे शोर मचान अपना अधिकार समझते हैं।

माना किया हुआ काम करने में या जिस काम के लिए हमें चेतावनी दी जाती है उसे करने में विशेष आनंद आता है। अब आपसे ही निवेदन किया है कि इसे "मत पढ़िये" आप भी आदत से मजबूर हैं। जरा सोचे आखिर ऐसा क्यों होता है।

निशा

अनुक्रमांक-1604

इंसान

ओ इंसान बड़े इंसान

आ तुझे को शीशा दिखलादू अपने को पहचान ,

साँझ सकारे धरती को कहे है माता-पिता,

समय पड़े पर माता को भी है बेच के खा जाता ,

देख जरा पेड़ों को जानी ,जन्म जहाँ जो पाते है,

उस धरती को छाव देकर,धूप में खुद जल जाते है।

यह है माँ का मान ,ओ इंसान बड़े इंसान ।

तुझे से तो बलवान है चिड़िया ,जो चाहे कह जाती है ,

दिल कि बात तेरे होंठों पर आने से शर्माती है।

दुनिया भर के जानवरों कि है एक जैसे भाषा ,

तू उर्दू और हिन्दी के झगडो में समय गवाता है ।

वाह !मेरे विद्वान ओ इंसान बड़े इंसान।

मान लिया एक घर के बर्तन आपस में टकराते है ।

मान लिया जंगल के पंछी आपसे में लड़ जाते ।

उनके रैन बसेरे का पर तिनका हिल नहीं पाता है।

और तू राम –रहीम से लड़कर घर को आग लगता है।

बन भारत कि शान ओ इंसान बड़े इंसान ।

आ तुझे को शीशा दिखलादू अपने को पहचान।

शबनम शर्मा

पानी

पानी पानी पानी पानी,
जीवन का आधार है पानी
गर्मी से राहत दिलवाता
हर प्राणी की प्यास बुझाता
अकुलाहट को दूर भगाता
सबको निर्मल स्वच्छ बनाता

पानी पानी पानी पानी,
धरती का श्रगार है पानी
बादल बन अमृत बरसाता
बन झरना यह सबको भाता
नदिया बन कल कल गाता
सीप का यह मोती बन जाता

पानी पानी पानी पानी
सबको पालनहारा है पानी
पेड़ों को हरयाली देता ।
जीवों को नया जीवन
धरती को खुशहाली देता
करता सबको पावन
पानी पानी पानी पानी
पानी की कीमत पहचानों
सीमित है पानी ये तुम जानो

शिल्पा

मेरी प्रेरणा

जहाँ हो सब का मान,

ऐसा है हमारा शिक्षण संस्थान ।
यहाँ हम रोज़ पढ़ते आते, नई नई बातें सीखकर जाते,
टीचर हमारे हैं सारे अच्छे, उन्हें प्यार करते सब बच्चे ।

अनीता मैम की है अलग पहचान ,
सभी करते हैं उनका सम्मान ,
मनोविज्ञान का वो देते हमें ज्ञान ।
कृतिका मैम की है अपनी शान ,
मौलिक अधिकारों का वो देती ज्ञान ।

कोनिका मैम हैं हमें भाते ,
आलोचनात्मक सोच हमें पढ़ते ।
सचिन सर जब कक्षा में आते ,
नयी दुनिया में हमको ले जाते ।

सभी हैं हमारे संस्थान के गहने ।
यहाँ फूलों से भरी क्यारियाँ,
यहाँ चारों ओर छाई हरियाली,
जो बना देती सबको मतवाली।

अंजलि मैम हैं अच्छा पढ़ते,
हिन्दी शिक्षण का विषय हमें सीखते ।
पल्लवी मैम की है बात है निराली ,
सदा तल्लीन रहते कभी नहीं रहते खाली ।

प्रधानाचार्य सर की बात अलग है,
उनकी नजर हर मामले में बहुत सजग है ।
पाठक महोदय का है सर्वोच्च स्थान ,
क्योंकि उन पर निर्भर करता है इस संस्थान का उत्थान ।
बाकी अध्यापकों का क्या कहना ,

शिल्पा

अनुक्रमांक-1706

राजस्थान की सैर

आंखो के दरमिया में गुलिसता दिखाती हूँ
आना कभी मेरे देस में आपको राजस्थान दिखती हूँ
खेजड़ि के साखों पर लटके फूलों की किमत बताती हूँ
में सांभर की झील से देखना ,कैसे नमक उठती हूँ
में शेखबटी के रंगो से पनपी चित्रकला दिखती हूँ
महाराणा प्रताप के शौर्य की गाथा सुनाती हूँ
पद्मावती और हाड़ी रानी का जोहर बताती हूँ
पग घूघरु बाध मीरा का मनोहर दिखती हूँ
सोने से माटी में पानी का अरमान राजस्थान दिखती हूँ
आना कभी मेरे देस में आपको राजस्थान दिखती हूँ
हिरण की पुतली में चाँद के दर्शन करती हूँ
चंद्रबरदाई के शब्दो की व्याख्या सुनाती हूँ
मिठ्ठी बोली ,मिठ्ठे पानी में जोधपुर सैर करती हूँ
कोटा ,बूंदी ,बीकानेर और हाड़ोती की मैं मल्हार गाती हूँ
जीते जी इस धरती पर स्वर्ग का मैं वरदान दिखती हूँ
आना कभी मेरे देस मई आपको राजस्थान दिखती हूँ
कोठिया देखती हु,राज हवेली दिखती हूँ
नजरे ठहर न जाये कही कुंभलगढ़ दिखती हूँ
घुघट में जीती मर्यादा और गंगानगर का मतलब समझती हूँ
तनोट माता के मंदिर से मैं विश्व शांति की बात सुनाती हूँ
रज़िया के दोहो से लेके ,जामभोजी के उसूल पढ़ती हूँ
होंठो पे मुस्कान लिए मुच्छों पे ताव देते राजपूत की परिभाषा बताती हूँ
सिक्खों की बस्ती में पूजा के अजान सुनातीहूँ
आना कभी मेरे देस मई आपको राजस्थान दिखती हूँ

नीतू

सेव गर्ल चाइल्ड

ठुमक ठुमक कर गाने दो मुझको
यू मत मर जाने दो मुझको
जीवन भर आभार करुगी
माँ मैं तुझसे प्यार करुगी
मैं तेरी ही बेटि हूँ माँ
मुझे जन्म दो, मुझे जन्म दो।
मैं भी तो हूँ वंश तुम्हारा
पापा को समझाकर देखो
सारी बात बता कर देखो
बिगड़ी है अनुपात बताओ
क्या होंगे हालात बताओ
फिर ब न माने पापा
रोऊँगी मनुहार करूँगी
मुझे जन्म दो, मुझे जन्म दो।

कल्पना चावला ,लक्ष्मी बाई ,मदर टेरेसा
ममता का अध्याय है मदर टेरेसा
ये बाते बतलाओ अम्मा
दादी को समझाओ अम्मा
मैं नन्ही पोती दादी की
सब गुण अंगीकार करुगी
मुझे जन्म दो, मुझे जन्म दो।

अन्तरिक्ष में जाकर माँ
रोशन तेरा नाम करुगी
जो जो बेटे कर सकते है
हर वो अच्छा काम करुगी
नाम से तेरे जानी जाऊ
ये मैं बारंबार करुगी
मैं तुझसे माँ प्यार करुगी
मुझे जन्म दो, मुझे जन्म दो।

श्वेता

मेरा आसमान

घर मेरा एक बरगद है
मेरे पापा जिसकी जड़ है
घनी छाव है मेरी माँ
यही है मेरा आसमान !!
पापा का प्यार है अनोखा
जैसे शीतल हवा का झोंका
माँ की ममता सबसे प्यारी
सबसे सुंदर , सबसे न्यारी !!
हाथ पकड़ चलना सिखलाते
पापा हमको खूब घुमाते
माँ मलहम बनकर लग जाती
जब भी हमको चोट सताती !!
माँ पापा बिन दुनिया सूनी
जैसे तपती आग की धूनी
माँ ममता की धारा है
पिता जीने का सहारा है !!

असफलता सफलता से कहीं ज्यादा महत्वपूर्ण

सभी के जीवन में एक समय ऐसा आता है जब सभी चीजें आपके विरोध में ही रही हो चाहे आप एक प्रोग्रामर हैं या कुछ और आप जीवन के उस मोड़ पर खड़े होते हैं जहाँ सब कुछ गलत हो रहा होता है। अब चाहे यह कोई सॉफ्टवेयर हो सकता है जिसे सभी ने रिजेक्ट कर दिया हो या आपका कोई फैसला हो सकता है। और भूत ही भयानक साबित हुआ है लेकिन सही मायने में विफलता सफलता से जीतने भी बिजनेसमेन साइंटिस्ट और महापुरुष हुए हैं और जीवन में सफल बनने से पहले लगातार पहले कई बार फ़ेल हुए हैं। जब हम बहुत सारे काम कर रहे हो तो ये जरूरी नहीं की सब कुछ सही होगा। लेकिन आप इस बजह से प्रयास करना छोड़ देंगे तो कभी सफल नहीं हो सकते।

हैनरी फोर्ड जो बिलिप्नेट और विश्व प्रसिद्ध फोर्ड मोटर कंपनी के मालिक हैं। सफल बनने से पहले और पाँच अन्य बिजनेस में फ़ेल हुए थे। कोई और होता तो पाँच बार अलग अलग बिजनेस में फ़ेल होने और कर्ज़ में डूबने के कारण टूट जाता। लेकिन फोर्ड ने ऐसा नहीं किया और आज एक बिलिनेयर कंपनी के मालिक हैं। अगर विफलता की बात करें तो थोमस अल्वा एडीसन का नाम सबसे पहले आता है। लाइट बल्ब बनाने से पहले उसने लगभग 1000 विफल प्रयोग किए थे। अल्बर्ट आइन्स्टाइन जो 4 साल की उम्र तक कुछ बोल नहीं पाता था और सात साल तक की उम्र तक निरक्षर था। लोग उसको दिमागी रूप से कमजोर मानते थे लेकिन अपनी थैओरी और सिद्धांतों के बल पर वो दुनिया का सबसे बड़ा साइंटिस्ट बना।

रीटा पठानिया

प्रेम भाव

जात पात का भेद मिटाओ ,
सब मिलकर एक हो जाओ ।
जात पात में काया रखा है ,
भाईचारा ही सबसे अच्छा है ।
हिन्दू मुस्लिम ,सिक्ख,ईसाई ,
आपस में है भाई भाई ।
छोड़ो धर्म पर लड़ना -भिड़ना ,
करो तुम सबसे नेक कमाई ।
रब्ब ने बनाया सबको एक ,
इंसान में बांटे काम अनेक।
हम सबको है मिलकर चलना
राष्ट्र को है उन्नत करना ।

डर के आगे ही जीत है

गलतियाँ सबसे होती है और यह कोई बड़ी मुश्किल की बात नहीं। ज्यादातर सफल लोगों के अनुसार गलतियाँ और असफलताएँ हमारे जीवन में अतिआवश्यक है और इसका महत्त्व सफलताओं से भी अधिक है। हम गलती करके ही सीखते है और कोई दूसरा बेहतरीन तरीका नहीं है। महान लोगों के अनुसार आप जितनी ज्यादा गलतियाँ करते है उतनी ही ज्यादा आपके सफल होने की संभावनाएं बढ़ जाती है।

दुनिया में सिर्फ एक ही चीज गलत है और वह है अपनी गलती को दोहराना।

सबसे बड़ी बात यह है – अपना जीवन दूसरे लोगों के अनुसार जीना बंद करें, लोग कहते रहेंगे, वह करें जो आपको सही लगता है, जो आपको अच्छा लगता है, जिसे करते वक्त आपको पता ही नहीं चलता कि कब सुबह से शाम हो गयी। हो सकता है कि आपकी परिस्थितियां ऐसी हो कि आप दिन भर वह नहीं कर सकते जो आपको अच्छा लगता है लेकिन एक छोटी सी शुरुआत कीजिए आप देखेंगे कि आपकी जिंदगी बदल रही है। एक कहावत है –

“अपने भीतर के संगीत को छिपाए हुए ही न मर जाएँ”।

ज्यादातर लोगों की जिंदगी केवल इसलिए अच्छी नहीं क्योंकि वे अपने दिन का ज्यादातर समय ऐसे कार्य करने में बिताते है जिनमे उनका मन नहीं लगता और ऐसा करने से वे अपना आत्मविश्वास खो देते है और उनकी जिंदगी जिन्दा लाश के समान बन जाती है।

एक रास्ता जिससे लाखों लोगों की जिंदगी बदल जाती है वह यह है कि वे लोग प्रेरणादायक पुस्तकें पढनी शुरू कर देते है। जब आप प्रेरक साहित्य, ब्लॉग और सकारात्मक प्रोग्राम्स देखते है तो आपकी जिंदगी में एक बड़ा बदलाव आने लगता है ऐसा लगता है जैसे चमत्कार हो रहा है। ऐसी पुस्तकें हमें बताती है कि “जीवन क्या है और इसको जीने का क्या तरीका है”। ऐसी पुस्तकें हमें बताती है कि कैसे वाकई में चमत्कार होते है और कैसे सृष्टि हमारे सपने को पूरा करने में हमारी मदद करती है। दरअसल प्रेरणादायक ज्ञान हमें अपने भीतर छुपी शक्तियों को पहचानने में मदद करता है। प्रेरणादायक पुस्तकें कोई नई बात नहीं बताती बल्कि ये तो हमारे भीतर छिपे ज्ञान से हमारा परिचय करवाती है।

डॉ अश्वनी कुमार

“अवचेतन मनः”

चेतन मन हमारी चेतन या सक्रिय अवस्था है, जिसमें हम सोच विचार और तर्क के आधार पर निर्णय लेते हैं या कोई कार्य करते हैं। अवचेतन मन एक Storage Room की तरह है, जो हमारे सभी विचारों, अनुभवों, धारणाओं आदि को संग्रहित करता है। अवचेतन मन (Subconscious Mind) तर्क एवं सोच विचार के निर्णय नहीं लेता बल्कि यह हमारे पिछले अनुभवों एवं धारणाओं के आधार पर स्वचालित तरीके से कार्य करता है। चेतन मन और अवचेतन मन को एक उदाहरण द्वारा समझा जा सकता है—जब भी कोई व्यक्ति पहली बार साइकिल चलाना सीख रहा होता है, तो उसे साइकिल को ध्यानपूर्वक नियंत्रित करना होता है। शुरुआत में वह संतुलन नहीं बना पाता और थोड़ा डरा हुआ भी रहता है। लेकिन कुछ दिनों बाद जब वह साइकिल चलाना सीख जाता है तो अब उसे साइकिल को नियंत्रित करने के बारे में सोचने की भी आवश्यकता नहीं होती। अब साइकिल अपने आप नियंत्रित हो जाती है और अब तो वह मित्रों के साथ बातचीत करते हुए या कोई और कार्य करते हुए भी साइकिल चला सकता है। ऐसा क्यों होता है????

अवचेतन मन – ऑटोपायलट सिस्टम

शुरुआत में जब व्यक्ति पहली बार साइकिल चलाना सीख रहा होता है तो वह अपना “चेतन मन (Conscious Mind)” इस्तेमाल कर रहा होता है। लेकिन जब वह बार-बार साइकिल चलाने की प्रैक्टिस करता है, तो अब यह अनुभव उसके अवचेतन मन में संग्रहित (Store) होने शुरू जाते हैं और धीरे धीरे अवचेतन मन, चेतन मन की जगह ले लेता है। हमारा अवचेतन मन एक ऑटोपायलट सिस्टम (Autopilot System) की तरह है जो अपने आप स्वचालित तरीके से कार्य करता है। सभी स्वचालित कार्यों जैसे साँस लेना, दिल धड़कना आदि कार्य अवचेतन मन के द्वारा ही किए जाते हैं। हमारी आदतें एवं रोजमर्रा के सभी कार्यों में अवचेतन मन का महत्वपूर्ण योगदान होता है।

मन कार्य कैसे कार्य करता है:

अवचेतन मन एक सॉफ्टवेयर या रोबोट की तरह है, जिसकी प्रोग्रामिंग चेतन मन द्वारा की जाती है। अवचेतन मन एक रोबोट की तरह है जो स्वयं कुछ अच्छा बुरा सोच नहीं सकता, वो तो केवल पहले से की गई प्रोग्रामिंग के अनुसार स्वचालित तरीके से कार्य करता है। हमारे हर एक विचार का हमारे अवचेतन मन पर महत्वपूर्ण प्रभाव पड़ता है या यह कह सकते हैं कि हम जो कुछ भी सोचते हैं या करते हैं उससे हमारे अवचेतन मन की प्रोग्रामिंग होती जाती है और फिर बाद में धीरे धीरे अवचेतन मन उस कार्य को नियंत्रित करने लगता है। हमारी आदतों और धारणाओं का निर्माण भी ऐसे ही होता है और बाद में वह आदत स्वचालित रूप से अवचेतन मन के द्वारा नियंत्रित होती है।

हमारा मन प्रोग्रामिंग कैसे करते हैं:

यह हम पर निर्भर करता है कि हम अपने अवचेतन मन की प्रोग्रामिंग कैसे करते हैं। एक बार प्रोग्रामिंग हो जाने के बाद अवचेतन मन उसी के अनुसार कार्य करने लगता है – चाहे वह कार्य गलत हो या सही। चेतन मन (Conscious Mind) को विचारों का चौकीदार या गेटकीपर भी कहा जा सकता है। दरअसल हमारा हर विचार एक बीज की तरह है और हमारा अवचेतन मन एक बगीचे की तरह है। हमारा चेतन मन यह निर्णय करता है कि अवचेतन मन में कौनसा बीज बौना है और कौनसा नहीं।

हम कभी कभी अनजाने में अपने अवचेतन मन की गलत प्रोग्रामिंग कर देते हैं – जैसे अगर मैं यह सोचता हूँ आज मैं यह लेख नहीं लिखूंगा तो यह छोटा सा विचार धीरे धीरे मेरे कार्य को कल पर टालने की आदत बन सकता है। गहन चिंतन और मैडिटेशन के द्वारा हम अवचेतन मन की Reprogramming करके इसमें इन्स्टाल किए हुए गलत सॉफ्टवेयर को धीरे-धीरे डिलीट कर सकते हैं।

हमारे जीवन के एक महत्वपूर्ण भाग को “अवचेतन मन” नाम का रोबोट नियंत्रित करता है और यह रोबोट, चेतन मन द्वारा की गयी प्रोग्रामिंग से नियंत्रित होता है। इस रोबोट की प्रोग्रामिंग विचार रूपी बीज से होती है, इसलिए सफलता इस बात पर निर्भर करती है कि हम कौनसे विचार चुनते हैं और अपने अवचेतन मन में किस तरह के सॉफ्टवेयर इन्स्टाल करते हैं।

"मैं संकट एवं विपदाओं से भयभीत नहीं होता ! संकटपूर्ण दिन आने पर भी मैं भागूंगा नहीं वरन आगे बढ़कर कष्टों को सहन करूँगा !"

-सुभाष चन्द्र बोस

EDITORIAL

Ms. Konica Pathania
Asst. Prof. Education Department

Expression is one of the best characteristics forms of human behaviour. It was this skillful expression that gave birth to Kalidas, Shakeshpeare and Galib. College magazine provide platform to the student to develop their creative skills. Many of our students expressed their imagination and feelings in such a way that the purpose of our college magazine seems to be proved.

I am thankful to Mr. Ashwani Kumar, who considered me able for performing the job of Staff Editor of Science Section. It's a great experience for being a part of this magazine. I congratulate all who have contributed enthusiastically to this section and helped me in bring this section a final shape.

LITTLE ADVICE

My dear girls

Do not be busy with curls.

My dear boys

Do not make noise.

If you want to gain more knowledge

You should daily attend the college.

If you want to succeed

You should write and read.

Be ready and make no haste.
It is the time not to waste.
Work! Work! Work with diligence
Think! Think! Think with intelligence.
Hard work will bring fruit sweet
And success will kiss your feet.
Do not believe in foolish knowledge
Best knowledge is gained from this college.
So my dear girls and boys
Herein lays life's joys.

MOTHER

Mother means a loving heart where,
content and peace abound,
Mother means a happy home,
Where laughter always found,
Mother stands for gentle care,
For bright and good advice,
Mother stands for everything,
That is wonderful and nice.

Shweta Thapa
Roll no:1716 (B.Ed.)

SOME PRECIOUS THINGS

World is not a parking space

It is a “racing track”

Keep on moving, no matter,

When and where you start,

But reach your goal

And make a new record.

Minakshi
Roll no: 1722 (B.Ed.)

ESSENCE OF LIFE

Life is a song,

Be like Lata Mangeshkar and sing it.

Life is like a game of cricket,

Be Sachin Tendulkar and win it.

Life is a stage,

Be Amitabh Bachchan and play the role.

Life is a long road,

Be Ronaldo and hit the goal.

Life is a beautiful book,

Read it and draw lessons from it.

Neetu Rajpurohit
Roll no. 1764

A DAUGHTER

A daughter is a wonderful blessing,
A treasure from above.
She's laughter, warmth and special charm,
She's thoughtfulness and love.

A daughter brings a special joy,
That comes from deep inside.
She's thoughtfulness and love
And as she grows to adulthood,
She feels your heart with pride.
With every year that passes,
She's more special than before.

Through every stage, through every age,
You love her even MOR
Now words can describe the warm memories
That pride and gratitude, too.
That comes from having a daughter,
To love and cherish...just like you!

Why Should You Have a Mobile Friendly Site?

There are a lot of reasons why it is important to have a mobile friendly site. Foremost of which is that it allows you to practice responsive web design. This allows you to create a website that can be viewed in just about any type of digital device known to man. This will make your website easily located because its dimensions and aesthetics can be reconfigured. It just makes life a lot easier for everyone.

Today, you can combine that with the way you want the site to look like even if you are only using your smart cellular phone. Browsing the internet through your cellular phone is actually the easiest way of doing it. It is important that responsive web design be adapted to your website because of the presence of these mighty gadgets. Moreover, the smart phone actually acts like a computer in itself in the size of a cellular phone. This means that information from the internet is now readily available to almost anyone out there through his/her smart phone and tablet computers.

According to studies, close to half of those who own mobile gadgets actually use these for surfing the internet. Whether they use this for social networking or visiting websites for research, the fact is there is a strong demand to use it. Responsive web design provides more business opportunities since it has the capability of adapting a layout to the browser being used to surf. Knowing that the screens of these mobile devices are very different to those of laptops and desktop computers, the layout of the website maybe changed in accordance to RWD. The good thing about it is that it does not cost that much and takes minimal amount of time to do.

This type of web design can also be used in connection with GPS. Mobile device users can easily find their way with the use of a Global Positioning System for the proper directions. One can also look for places with the use of a mobile device.

By having a mobile friendly website for your business, you actually have put yourself ahead of the competition. Having a website design that is adaptable for mobile devices is a lot more reachable than those that are not. This just might set you apart from other companies as it gives you a distinct advantage of being located without the use of a bulky desktop computer. Just imagine the business opportunities you might lose if you can't be located with the use of smart phones and tablets.

IMPORTANT THREE THINGS

- Three things in life that, once gone never come back.
-Time, Work, Opportunity
- Three things in life that is most valuable.
-Love, self-confidence, friend
- Three things in life are never certain.
-Dream, Success, Fortune
- Three things in life that can destroy.
-Alcohol, Pride, Anger
- Three things that makes a man/women:
-Hardwork, Sincerity, Commitment
- Three things in life that once lost hard to build up:
-Respect, Trust, Friend
- Three things in life that never be failed:
-True love, Determination, Belief

Anuj Kumar (B.Ed.) 1713

SMILE

When oppressed or depressed

When deeply distressed

Under a mountain of worry-justly smile.

When you have promised to keep.

Miles to go before your sleep.

Just stop for a while and smile.

When tragedy strikes with its might
And dearest ones depart
Have a good cry for a while then smile.
When wrongly criticized.
Ridiculed or slandered
Don't be shy and bites but smile.
It's a magic cure my friend
To keep your mind save
And sound all year round
So ssssssssmmmmmiiiiilllleeeee....!!(-_-)

Sunil kumar

B.Ed

If you want

If you want to write,
Write good easy.
If you want to kill,
Kill your desires
If you want to die,
Die for your country.
If you want to take,
Take your education.
If you want to live,
Live for other.
If you want to earn,
Earn good name.
If you want to keep,
Keep good health.

If you want to respect,
Respect others.

WHY GOD MADE TEACHERS

When god created teachers,
He gave us special friends
To help us understand his world
And truly comprehend
The beauty and wonder
Of everything we see,
And became a better person
With each discovery.
When god created teachers,
He gave us special guides.
To show us way special in which to grow
So we can all decided
How to live and how to do
What's right instead of wrong,
To lead us so that we can lead
And learn how to be strong,
God created teachers,
In his wisdom and his grace,
Was to help us learn to make our world
A better, wise place

Anuj

PARENTS

My dear Parents, My dear Parents

In hundreds, thousands

Millions and billions,

Not like you is ever, forever.

You are the ones,

Who care, who bother,

You are sharing joys and sorrows

Thou speak for good of ours.

You are the sign,

Of amazing patience.

Not like You

Have such a talent

You are really

A gentle personality

We can aspire to stand,

In thou equality,

I just say,

You go such way,

That can be message,

Only to pay – Only to pay.

Sushma Kumari

B. Ed. 1757

THE 7 CS OF COMMUNICATION

1. Clear

When writing or speaking to someone, be clear about your goal or message.

2. Concise

When you're concise in your communication, you stick to the point and keep it brief.

3. Concrete

When your message is concrete, then your audience has a clear picture of what you're telling them.

4. Correct

When your communication is correct, it fits your audience. And correct communication is also error-free communication.

5. Coherent

When your communication is coherent, it's logical

6. Complete

In a complete message, the audience has everything they need to be informed and, if applicable, take action.

7. Courteous

Courteous communication is friendly, open, and honest.

Shivani Chaudhary

----- शिव खेड़ा

VALUE OF TIME

To realize the value of ONE YEAR, ask a student who has failed a grade.

To realize the value of ONE MONTH, ask a mother who has given birth to a premature baby.

To realize the value of ONE WEEK, ask the editor of a weekly newspaper.

To realize the value of ONE DAY, ask a daily wage labourer.

To realize the value of ONE HOUR, ask the lovers who are waiting to meet.

To realize the value of ONE MINUTE, ask a person who just missed a train.

To realize the value of ONE SECOND, ask someone who just avoided an accident.

To realize the value of ONE MILLISECOND, ask the person who has won a gold medal at the Olympics.

TREASURE EVERY MOMENT THAT YOU HAVE!

Chhavi Kaistha
B. Ed.

WHAT IS THE WORLD?

This world is a long road which cannot be measured.

This world is a river of knowledge,

Some people cross it, and some drown in it.

This world is a learning house,

Where some get knowledge and some remain fools.

This world is an inn,

Where some people come and go.

This world is an orator,

Who is dumb.

This world is such a giant,

Who is eating its own limbs.

This world is a shrine, which has no God.

This world is such a man, who has no soul.

This world is full of love,

Some people enjoy it and some hate it.

Varsha Sharma

“ किसी कार्य के प्रति जुनून उस काम को बार-बार कर अलग-अलग परिणामों की उम्मीद रखने में होता है। ”

----अल्बर्ट आइंस्टीन

WHAT IS LIFE

Life is a dream,
Just flowing as stream,

Life is a sorrow,
So don't depend on tomorrow.

Life is a play,
To reach goal its only way,

Life is bird's nest,
In which there is no rest.

Life is a war,
Its air is so far.

Life is a joy,
So enjoy this life oh! Active boy.

Life is contest,
In which there's no east or west,

Life is happiness,
So be happy, otherwise it would be useless.

Shivani
B. Ed. 1710

POSITIVE THINKING: THE BEST ATTITUDE

Often when we have to interact with group of people. The most attractive and appealing person is the person who is cheerful, has a smiling face and behaves as if he or she is enjoying movement.

Such people have an optimistic outlook towards life. They are the ones with positive attitude. In contrast to this, are the people who focused on the negative aspect of everything? They are called pessimists. The ones with negative attitude, do not attract the other people in the same way as a person with positive attitude does.

Having positive attitude means getting on with the job on hand. It means not brooding over what has gone and not before and not fearing too much what might happen in future. If there is a problem positive thinkers can quickly thing the ways to solve it. If such a positive thinker alone can not solve a problem, he or she seeks help from competent people.

Of course, even the greatest optimist cannot smile all the time and feel good. The ups and downs of the cause everyone to feel a touch of melancholy every Now and then. But developing a positive attitude helps us bounce back from every challenge and difficult experience and be ready to face whatever life brings. To get the best out of life, we owe it to ourselves to approach everything-work, friendship or relationship with a positive attitude.

TAKE CARE OF YOUR BUDDY-BODY

Eat, eat and eat! Nowadays, many teens are overweight and unfit. Many surveys had found out that more and more young people suffer from obesity, damaging their health. Therefore, stop eating too much! That is not alone about your appearance, but also about your health.

Lack of sport is a major problem causing teenagers overweight. Without consumption of calories, they will accumulate in your body. Then, you will get fatter and fatter. Unfortunately, most young people love playing video games and computer rather than sport. Of course, the intake of the diet cannot be cancelled out. Overweight body is resulted eventually.

Another reason is due to high content of calories in the diet. Eat too much calories is harmful as they will deposit in our blood vessels. This leads to fat bodies and then heart diseases.

Youngsters are under stress as the school work is so busy. Eating candies and snack is a common method to relieve pressure. However, it is unwise because candies and snack doom you to gain weight easily.

In fact, we can only use one rule to solve the problem-the uptake should be always greater than the intake!

Playing sport is a good method to lose weight. Besides, you will feel more comfortable after played sport. Hence, you can see it as a relaxing practice to relieve stress. To avoid the high content of calories, you should have a balanced diet. Don't eat too much snack! Eat much more fruits and vegetables instead of meat and carbohydrates. They also can make you feel full. Our bodies are belonged to us. Nobody knows it better than ourselves and we will suffer if there is anything going wrong of our bodies. Being fit is good for our health and hence we should keep fit from now on!

Care about your buddy - body, let's keep fit today!

“DRONE DELIVERY STARTUP TAKES AIM AT AMAZON”

A drone delivery startup that carried out the first government-approved test in the United States has recently shown how drones could deliver disaster relief supplies from ship to shore. The startup’s greater ambitions include nothing less than challenging Amazon and Google in the race to get drone delivery services off the ground.

The delivery drones belonging to **Flirtey**, a startup based in Nevada, can carry up to five and a half pounds on round-trip journeys of up to 10 miles. Such figures are significant considering that Amazon CEO Jeff Bezos has said 86 percent of Amazon packages weigh under five pounds. Flirtey envisions a future where drones regularly take care of commercial package deliveries and perform drone pizza delivery. They could also play more specialized roles in delivering emergency supplies and medical kits to disaster zones.

“I would venture to say the majority of things people order online will be sent by drone in the not-too-distant future,” says Matt Sweeney, CEO of Flirtey. “When you think of traditional package delivery services such as FedEx and UPS, more than half of those packages may be sent by drones in the future.”

In 2013, Sweeney founded Flirtey as an Australian drone delivery startup that had partnered with a textbook company to deliver books to university students. Since that time, Flirtey moved its headquarters from Sydney to Silicon Valley, before eventually settling down in Reno, Nevada because of the region’s special status as one of six drone test sites approved by the U.S. Federal Aviation Administration (FAA).

“Drone Delivery from Florence Nightingale”

Flirtey proceeded to pull off the first FAA-approved drone delivery of medical packages to a rural health clinic in Virginia in July 2015. This year, the startup stepped up its game with the first automated drone delivery of a emergency supplies to the front doorstep of a Nevada home in March.

Most recently, Flirtey conducted its ship-to-shore demonstration of drone delivery in cooperation with Johns Hopkins University, the nonprofit Field Innovation Team and several United Nations agencies on June 22. Flirtey drones flew back and forth between an ship anchored offshore and a medical camp located at Cape May, New Jersey. On one leg of the round trip, the drones carried medical samples such as blood and urine from the medical camp to the ship. On the return leg, the drones carried medical supplies and water purification tablets back from the ship to the medical camp.

Delivery drones carrying water and first aid kits could represent robotic Florence Nightingales during disasters such as 2012's Hurricane Sandy that left thousands of people in New Jersey and the New York City area cut off from help. The experience of Sandy inspired Flirtey's latest demonstration off the coast of New Jersey, but drone delivery could also help in many other humanitarian relief scenarios. Timothy Amukele, assistant professor of pathology at Johns Hopkins University School of Medicine, described how it took nine days to get Ebola test results back during the recent Ebola crisis in African countries such as Monrovia and Liberia.

"What all the organizations said was that if there is the ability to send in a ship and deploy drones on that ship, it could have a significant impact on patient outcomes," Sweeney says.

"Taking on Amazon and Google"

Flirtey faces some stiff competition in trying to launch a drone delivery service. Both Amazon and Google have been developing and testing drones for drone delivery in the United States and other countries. Wal-Mart has also applied for permission to test its own delivery drones. But Sweeney expressed confidence that Flirtey has a head start on its larger rivals that will pay off in the long run. His startup already does a commercial drone delivery business in New Zealand under that country's relatively more liberal drone regulations.

Any U.S. drone delivery service must still wait for FAA regulations to catch up. At the moment, any company that wants to operate drones for business reasons is supposed to apply for a Section 333 exemption with federal regulators. But the FAA recently took a step toward loosening restrictions by approving new commercial drone regulations that would take effect in August. Those new regulations still come with some restrictions that could prove tough for drone delivery services, such as requiring a human operator who has visual line of sight on the drone. But Sweeney sees it as a step in the right direction. "Now people recognize it's an inevitability that drone delivery will happen," Sweeney says. "We're ahead of anyone else in that regard and expect to lead in the marketplace."

Success is a Journey not a Destination

A good story for all of us to follow in our careers.

Once upon a time a washer man was bringing up two Donkeys. Let us say Donkey-A and Donkey-B.

Donkey-A felt it was very energetic and could do better than the other.

It always tried to pull the Washer man's attention over it by taking more load and walking fast in front of him. Innocent Donkey-B is normal, so it will walk normal, irrespective of the washer man's presence. After a period of time, washerman started pressurizing Donkey-B to be in Donkey-A.

But Donkey-B unable to walk fast, got continuous punishment from Washerman, It was crying and told personally to Donkey-A:

"Dear friend, only we two are here, why to compete with each other...we can carry equal load at normal speed-".

That made Donkey-A all the more energetic and next day it told to Washer man that it can carry more load and even it can run fast also.

Obviously happier washer man looked at Donkey-B...his BP raised and he started kicking Donkey-B. Next day with smile, Donkey-A carried more load and started running fast. But it was breathtaking for Donkey-B and it couldn't act that way..But the Washer man was frustrated, so he harasses Donkey-B terribly, and finally it fell down hopelessly.

Then Donkey-A felt itself as a supreme and happily started carrying more load with great speed. But now the Load of the donkey-B is also carried by Donkey-A,,and still it has to run fast. For some period it did, finally due to fatigue it got tired and started feeling the pain. But washer man expected more from Donkey-

A.It also tired best,but couldn't cope up with his owners demand. The Washer man got angry with Donkey-A also and started harassing to tale more load..Donkey-A was crying for long time and then tried its best...But it couldn't meet the owner's satisfaction. Finally the day came when due to frustration the washer man killed Donkey-A and went for searching some other Donkeys.

It's an endless story...Bout the moral of the story in Corporate File is...

"Think all project mates are same and that everyone is capable...always share the Load equally...Don't ever act smart in front of your Boss and never try for getting over-credited..Don't feel happy when our project mate is under pressure..."

And most importantly, never Work hard, Work Cleverly ...

"Success is a journey not a destination"

Ms. Deepika Kashyap
Asst. Prof. BCA-Department

Why Education is important in our life

It is very easy to explain importance of education. No human beings are able to survive properly without education. By the means of education only one's potential can be used to maximum extent. Education tells men how to think, how to work properly, how to make decision. Through education only one can make separate identity. It is most important in life like our basic needs food, cloth and shelter. With the beginning we learnt how to interact with others, how to make friends because of education only. As I remember when my parents had enrolled my name in school not only I learnt the alphabets and numbers but also I made friends, interacted with them with teachers.

With further development you were faced with the sense of competition and desire and other such emotions and feelings, you also learnt to control these emotions and feelings. And also teachers how to act in different situations. Education is not just restricted to teaching a person the basic academics, say computers, mathematics, geography or history education is a much larger term.

If you want to find out the impact of education on any individuality, you better do an intense observation to the ways of well- educated people and then compare them with an illiterate man. You would get a clear picture of the education and its accurate concept. Education is one of the important factors which formulate the person to person. Education is a productive and beneficial factor in a person's life. It is everyone's right to get. The training of a human mind is not complete without education. Only because a man are able to receive information from the external humanity, to notify him with past and receive all essential information concerning the present.

When one travels around the world, one observes to what an extraordinary degree human nature is the same, whether in India or Australia, London, Europe or America.

Conservative education makes independent thinking extremely complicated. If we are being educated merely to achieve distinction, to get a better job, to be more efficient, to have wider domination over others, then our lives will be shallow and empty. If we are being educated only to be scientists, to be scholars wedded to books, or specialists addicted to knowledge, then we shall be contributing to the destruction and misery of the world.

We may be highly educated, but if we are without meaningful combination of thought and feeling, our lives are incomplete and clashing. Education develops a meaningful outlook on life. The individual are different but to accentuate the differences and to encourage the development of a definite type education is must.

Education is not just a matter of training the mind. Training makes for efficiency, but it does not bring about completeness. Knowledge and efficiency are necessary, which brings up by education.

Education should helps us to discover lasting values; unfortunately, the present system of education is making us submissive, emotionless and deeply thoughtless.

System, whether educational or political, are not changed without explanation; they are transformed when there is a fundamental change in ourselves. The individual is of first importance, not the system; and as long as the individual does not understand the total process of himself, no system can bring order and peace to the world.

Mr. Rajesh Kumar
(Asst. prof.)
BBA department

Humanity Is the Best Religion for Mankind

People are God's gift to Mankind; everyone has the same body and soul. By respecting people He created we are actually respecting the Creator. Hatred leads nowhere, love, caring go a long way. Man has no right to decide which religion is the best Since Mother Earth was created, she has seen herself being divided both naturally (into sub continents) and then selfishly (into countries). She must have never thought that a day would come one when she would be divided by her own children in the name of Religion. When a child is born, he has no conscious knowledge about himself or about the environment around him. He is an alien, an innocent soul. His body is made up of the same elements as that of Mother Nature. They have the same two hands, two legs; a heart to love and not to hate and even the colour of blood is the same. It is really hard to digest that people forget themselves as in the direct gift of the Creator and fight for land, for power and for little things that hardly matter in life. We all pray to Him to give us all these things. We forget the purpose of our life, for what we have been created.

Man cannot create a leaf or a fly, though he is free to tamper with God's creation to the extent he wills. He cannot prevent himself from getting hungry and thirsty, he does not decide what time or country he will be born, he is not free to choose his parents nor physical structure, nor does he know when and where he will die. When so many things cannot be decided by him, he has no right to decide which religion is the best. There is no point in fighting with each other or in instilling fear in other people.

There is a lot of hue and cry in this world- people are starving, they are craving for love, they are molested for some or the other reason. It is high time we rise from the petty issues of religion, fighting over 'my religion is better than others'. We need to understand that we have to rise above the boundaries of caste, colour, creed, nationality, the conventional religion. Though we are living in the 21st century with all the technical innovations on one side yet we are still fighting over religion every human being must be treated with respect. We Indians have always been boasting of our 'unity in diversity.' But do we practice it or it has just turned into a phrase. Each of us must ask ourselves this question. People need to understand that when they will die, they will be reduced to something that will be de composed. Neither the power

nor the money will remain with him. Humanity should be the biggest religion for each and everyone.

A society can be served in this way thus making earth a better place to live in. We have to remember that we are all children of nature and we cannot go on fighting with each other. We need to decide what we are going to give to our next generation- hatred or love- the choice is solely ours.

अगर किसी देश को भ्रष्टाचार – मुक्त और सुन्दर-मन वाले लोगों का देश बनाना है तो , मेरा दृढ़तापूर्वक मानना है कि समाज के तीन प्रमुख सदस्य ये कर सकते हैं. पिता, माता और गुरु.

EDITORIAL.....

Geetika Singh
BCA Department

I am extremely happy to bring out this message for our college magazine released for the academic year 2015 – 2016. This magazine provides a platform for students and staff to share information, spread the latest technical knowledge and cultivate right ways that will equip all of us to stay competent in our respective fields of study and research. Reading this magazine would definitely be an inspiration and motivation for all students and staff to contribute even more to the forthcoming issues. I hope that everyone would continue to give their full efforts to keep the momentum and continue to enhance the standards of the magazine.

I congratulate and thank all the students and staff coordinators who have made untiring efforts to bring out this magazine. I wish them all success.

**If u are not willing to learn, No one can help you.
If u are determine to learn, No one can stop you.”**

Since the beginning of time technology has helped us out as a human race. From the invention of the wheel to the Internet, technology has been a great factor on the way our civilization has grown. With more and more technological advances just around the corner, our civilization will continue to grow faster and faster than ever before. Computers benefit children with special needs in the school system. Computers have proven extremely beneficial to students with certain speech, audio, and motor limitations. Students with special needs can use alternative devices to interact with computers and do things that they normally could not accomplish independently. What they can do through using a computer boosts their self-esteem and provides them with a greater sense of control with the world around them and their own individual lives. The Internet– or the information highway — provides them with the best of knowledge for their treatments and they can keep in touch with doctors or friends through out the world with the Internet. Computer technology will continue to assist special needs students far into the future.

Finally, I would like to take this opportunity to place on record my hearty thanks to all the students for their involvement to complete this section and special thanks to Mrs. Geetika Thakur for her guidance. She has extended to all of us for this magazine.

“What a computer is to me is the most remarkable tool that we have ever come up with. It's the equivalent of a bicycle for our minds.”

— Steve Jobs

FRIENDSHIP

Friendship is one of life's greatest treasures.

Friends that are loyal are always there to make you laugh when you are down,

they are not afraid to help you avoid mistakes and they look out for your best interest.

This kind of friend can be hard to find, but they offer a friendship that will last a lifetime.

Other friends may not be quite as loving.

The pain caused by a friendship marred by betrayal is not easy to overcome.

In fact, many poems find their inspiration from the joy brought about by a

loving friendship or the pain caused by a failed friendship....

CREATIVE VISUALIZATION FROM IMAGINATION TO REALITY ATTRACTING SUCCES WITH MIND POWER.

Creative visualization is a mental technique that uses the imagination to make dreams and goals come true. Used in the right way creative visualization can improve your life and attract to you success and property.

It is the power that can after your environment and circumstances cause events to happen and attract money possessions, work people and love in to your life.

By visualizing a creation event situation or an object you attract it into our life. it is the process that is similar to daydreaming.

For some people this might look like magic, but there is no magic evolved, only the natural process of the power of thoughts and natural mental lows. It is like having a genie at your disposal.

THE WONDER KID

It's tough sometimes to be a dad,

Especially when your kid is dad.

You wonder why she's did what she did –

And why she's not a wonder kid.

A wonder kid is always good.

A wonder kid does what she should.

A wonder kid is never bad.

A wonder kid makes daddies glad.

A wonder kid makes daddies glad.

She doesn't shout, she doesn't fight.

She goes to bed on time each night.

She makes her bed, she eats her peas.

She always says, "yes, sir" and "please".

She never whines and never mopes.

She likes to bathe, and uses soap.

She chews her food, she doesn't slurp.

And when she's through she doesn't burp.

She wears her mittens when it freezes.

She's kind to pets and never teases.

She cares for toys and likes to share them.

Her clothes get cleaner as she wears them.

"Dad you ever hear of such a kid?

I asked my kid, who never did.

And then, oh boy, was I surprised

When my little girl apologized:

“I’m sorry for the thing I did.

I wish I were a wonder kid.

I wish that I could make you glad.

I love you so, my wonder Dad”.

I hemmed and hawed, I coughed and sputtered.

The butterflies in my stomach fluttered.

I’d focused on her faults, but she

Had only seen the good in me

It’s tough sometimes to be a kid,

Especially when Dad blows his lid.

You wonder how he gets that way,

And why he takes so long to say:

“I love you too, I’m really glad.

To know you think I’m a wonder dad,

And I wouldn’t change you, not a bit—

You already are a wonder kid”.

LIFE

Dealing with life's problems:

How often have you been living life happy and content, and then suddenly life slaps you in the face with something unexpected?

We all have problems, and the truth is that problems will never go away.

They will just change from one time you may be struggling.

when I let go

Of what I am,

I become

What I might be

The difference between a successful person and others is not lack of strength not a lack of knowledge.

But rather a lack you will.

Don't worry about failures,

Worry about the chances you miss, when you don't even try

APPLE-I PHONE

The Apple I was the result of the development efforts of Steve Wozniak, Steve Jobs, and Ron Wayne. It was developed, not in a garage, but in the bedroom of Steve Wozniak's home on 11161 Crist Drive in Los Altos (the house number was later changed to 2066). Steve Wozniak built the printed circuit-board, while Ron Wayne wrote the Apple-1 Operation Manual at his home. Steve Jobs did what he does best, advertising the Apple I to friends and family. They first previewed the Apple I in action during a May 1976 meeting of the Homebrew Computer Club. Paul Terell, the owner of the Byte Shop, the only computer store chain at the time, was impressed by what he saw and promised to buy 50 fully assembled computers for \$500 each. As you can see, the machine was intended for hobbyist that would add ASCII keyboards and displays after buying the bare circuit board. It was not meant to be pre-built with fully-assembled displays and attachments. Jobs insisted it could be done and with the help of Woz, Bill Fernandez (who introduced Jobs to Woz) and Daniel Kottke (a friend of Jobs) they were able to build by hand all 50 of the motherboards on the second-to-last day before their loaned parts were due. They were not the "fully assembled" computers Terell had asked for, but he paid the men the cash they needed to pay off loans and make a good profit. Apple later sold the Apple I for \$666.66 before being replaced by the much more practical and user friendly Apple II. Look at a screen shot of the Apple-1 display.

Specifications:

Processor: MOS Technology 6502 processor running at 1.023 MHz.

Memory: Came with 4k RAM (expandable to 8k, 65k with clever hack).

Ports: any standard ASCII keyboard that could be installed (as shown at right), and any monitor.

Display: frame rate of 60.05 Hz, could support 40 characters per line at 24 lines, with automatic scrolling.

Operating System:

Woz built the Apple I to run BASIC, so games could be programmed and played on it. It was a game machine for the most part. Woz thought the binary switches of the Altair 8800 and similar PCs were not user friendly enough so he wrote a BASIC language assembler into the ROM by hand using only hex. The Apple I did allow you to play around with the system using the 6502 disassembler though, following the philosophy that every user should be allowed to know everything about their computer.

THENNOW.....FOREVER

Need for Value Education in Education system

The Present education system has become largely skill based .The prime emphasis is on science and technology. However, science and technology can only help to provide the means to achieve what is considered valuable. It is not within the scope of science and technology to provide the competence of deciding what is really is valuable. Value education is a important missing link in the present education system. Because of this deficiency, most of our efforts may prove to be counterproductive and serious crises at the individual, societal and environmental level are manifesting.

Without this decision, the technology is aimless, directionless and it can be put to any use constructive or destructive particularly, the students who is trained in this kind of technology without giving him exposure to the subject or thought that helps him to decide on “what is valuable”? Leaves him aim less, direction less and he can be used or misused by those employing him. For this it is essential to understand what is really valuable for human being and what is really conducive to a happy and fulfilling life? This is value domain. With this clarity, he is able to see the meaning in life, purpose in life and is committed to fulfill that meaning, that purpose.This clarity and the satisfaction obtain out of the fulfillment of this purpose give him a feeling of self confidence. Value education is a process of self exploration and self evaluation and it is a process of dialogue between what you are and what you want to be.

Educational institutions play a significant role in promotion of value. The Vedas and Upanishads from the source of inspiration for the value education. University education commission 1948-1949 mentions the various aspects of morality as: Loyalty, courage, discipline, self sacrifice and spirituality. The secondary education commission 1952-1953 laid special emphasis on different values in formation of the characters of the students.

Living values education programs is project of worldwide proportions inspired by the new religious movement called the Brahma kumaris world spiritual university incorporate twelve values (unity, piece, happiness, hope, humility, simplicity, trust, freedom, Operation, honesty, courage, love). The LVEP website host 54 countries where values education projects are undertaken e.g. human values foundation, character education, family value scheme. Indian government currently promotes values

education in its school. The ministry of HRD has taken strong step to introduce values among schools and teacher training center. In India from leadership of B.shaji kumar, new golden education trust (NGET) value based education has progressing throughout the country among schools of first to twelve standard classes.

The value education enables us to understand our needs and visualize our goals correctly and also indicate the direction for their fulfillment. It also helps to remove our confusions and contradiction and bring harmony at all levels.

Mr. Sharad Verma

3-D Printers

Make Every Home a Factory

From chemicals to cars, 3-D printing may be the manufacturing method of the future.

Its use long confined to tech-savvy engineering students and Silicon Valley tinkerers, the 3-D printer has suddenly morphed into an off-the-shelf technology, with big implications for R&D and society at large. The printers, which create physical objects directly from digital renderings, could revolutionize the manufacture of everything from pharmaceuticals to automobiles.

In one notable application, chemists at the University of Glasgow last year [developed a method](#) for assembling chemical compounds using open-source software and a pair of \$2,000 3-D printers. One printer's robotically controlled syringe deposited gels that hardened into half of a reaction vessel. A second printer painted chemical compounds into the shell, which was sealed by the first printer. The compounds then combined in the completed reaction vessel, creating new, previously unsynthesized chemicals.

As a test, the Scottish team soon plans to use a similar process to create a common painkiller, ibuprofen. In the future, automated labs outfitted with just a few chemical printers and an Internet connection might make custom-tailored medicines on demand in your doctor's office, says study author Lee Cronin.

Also this year, a team of Belgian engineers printed a full-sized race car, suggesting a more efficient alternative to assembly lines. In another, more politically charged development, an American gunsmith printed functioning parts for a .22-caliber pistol. Soon after, a group called Defense Distributed generated controversy when it announced a project to create a fully printable 3-D gun and then make its plans freely available on the Internet. The group raised \$20,000 before the company from which it had rented its printer revoked the lease and reclaimed it, citing legal issues. Defense Distributed, however, remains committed to its goal of making 3-D printed guns commonplace.

Rajnish (Asst. Prof.)

BITCOIN

Bitcoin is an innovative payment network and a new kind of money. Bitcoin uses peer-to-peer technology to operate with no central authority or banks; managing transactions and the issuing of bitcoins is carried out collectively by the network. Bitcoin is open-source; its design is public, nobody owns or controls Bitcoin and everyone can take part. Through many of its unique properties, Bitcoin allows exciting uses that could not be covered by any previous payment system. Bitcoins aren't printed, like dollars or euros – they're produced by people, and increasingly businesses, running computers all around the world, using software that solves mathematical problem. A software developer called **Satoshi Nakamoto** proposed Bitcoin, which was an electronic payment system based on mathematical proof. The idea was to produce a currency independent of any central authority, transferable electronically, more or less instantly, with very low transaction fees. The bitcoin protocol – the rules that make bitcoin work – say that only 21 million bitcoins can ever be created by miners. However, these coins can be divided into smaller parts (the smallest divisible amount is one hundred millionth of a bitcoin and is called a 'Satoshi', after the founder of bitcoin. Main Advantages are as :

- 1) Fast peer-to-peer transactions
- 2) Worldwide payments
- 3) Low processing fees

A 2016 study found that 20% of Bitcoin users owned the currency because they “didn't want banks and governments controlling their money.” This was the second-most cited reason for owning it behind “investment purposes.”

With a 300 per cent increase in its value in just one year, Bitcoins will be the kind of investment you may be looking for. You can purchase Bitcoins with a credit card. Coinbase.com and Coindesk.com are the most popular exchanges. They also offer tutorials on digital currencies.

How To Purchase Bitcoins ?

In India, you can purchase Bitcoin from Zebpay exchange. Zebpay has Android and iPhone app which lets you link your bank account for quick transfers. You can buy Bitcoins by making a payment to Zebpay's bank account. You can also withdraw the money to your bank account, and track data on Bitcoin valuation in the country.

Are Bitcoins legal in India?

Even as economies like Japan and Russia move to legalize the use of Bitcoins, India, despite being at the cusp of a digital revolution is yet to officially recognize the cryptocurrency. India's central bank, the Reserve bank of India or the RBI, which regulates Indian rupee, had earlier cautioned users, holders and traders of Virtual currencies (VCs), including Bitcoins. Unocoin, another bitcoin trading firm which had received funds from Blume Ventures, saw a threefold rise in its user base to 1,20,000 following demonetisation. Which is what attracting people to buy Bitcoin.

Miss Parul Mahjan (Asst.Prof.)

What is Ransomware?

Ransomware is a kind of cyber attack that involves hackers taking control of a computer system and blocking access to it until a ransom is paid. For cyber criminals to gain access to the system they need to download a type of malicious software onto a device within the network. This is often done by getting a victim to click on a link or download it by mistake.

Once the software is on a victim's computer the hackers can launch an attack that locks all files it can find within a network. This tends to be a gradual process with files being encrypted one after another. Large companies with sophisticated security systems are able to spot this occurring and can isolate documents to minimise damage. Individuals might not be so lucky and could end up losing access to all of their information.

Cyber criminals often demand payment in return for unlocking the files. This is normally in the form of bitcoin, the online cryptocurrency.

In technical language: Malicious software that locks a device, such as a computer, tablet or smartphone and then demands a ransom to unlock it

Where did ransomware originate? The first documented case appeared in 2005 in the United States, but quickly spread around the world

How does it affect a computer? The software is normally contained within an attachment to an email that masquerades as something innocent. Once opened it encrypts the hard drive, making it impossible to access or retrieve anything stored on there – such as photographs, documents or music

How can you protect yourself? Anti-virus software can protect your machine, although cybercriminals are constantly working on new ways to override such protection

How to protect yourself against ransomware attacks

The best protection against ransomware attacks is to have all files backed up in a completely separate system. This means that if you suffer an attack you won't lose any information to the hackers.

It is difficult to prevent determined hackers from launching a ransomware attack, but exercising caution can help. Cyber attackers need to download the malicious software onto a computer, phone or other connected device.

The most common ways of installing the virus are through compromised emails and websites.

For example, hackers could send an employee a phishing email that looks like it comes from their boss asking them to open a link. But it actually links to a malicious website that surreptitiously downloads the virus onto their computer.

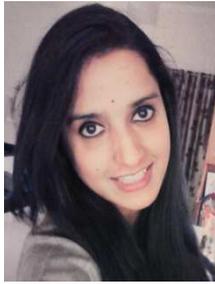

Mrs. Vitika Mahajan
Asst. Prof. (BBA Department)

ACCOUNTINGLY YOURS

In the journal paper of my heart,
I have written a journal entry,
Debiting my love and creating my affection,
Now partner, you write the narration.
Your Beauty is capital of four businesses,
And your eyes are stock in trade,
Now let us enter into a transaction,
Without providing depreciation.
Your first love, I have already indicated,
On the ledger folio column,
And way, our relations are based on,
Double entry system.
Our love is real and tangible,
Which can be the same?
Interest on the same,
Can be capitalized.
Partner, you like the contra-entry,
You are on my debit side or credit side,
Both at the same time,
Can;t be posted into ledger
And that now you decide.

And so my partner, now let us rectify
All our errors and total the trial balance,
Of our affairs and emotions,
Without maintaining any
Suspense accounts and any
Difference in the trial balance
In the balance of our life
Our children will be assets and liabilities,
If they are boys shall
We call them Sundry debtors?
If they are girls shall we call?
Them sundry creditors.
But if we have a boy and girl,
Our balance sheet will tally automatically
And the auditor will certify like this
The accounts show a true and
Fair view of lovely business,
Conducted during life's accounts.

“JUST LET GO”

Ms. Vanjakshi Sharma
Asst. Professor (BBA Department)

Few days earlier I met a guy, Mr. Stranger, very different but still very much like me. This man is from different planet, he doesn't want to live life like an ordinary working robotic man, he wants freedom, and he wants sky. Actually he is "One Man Army". I have learned lots of stuff from him & during our chats he gave me a lot of lessons...

But the best thing that i have learned from him & I have realised is , "letting go is easier than holding on" ...

Seriously, it's true... We live half of our lives in the illusion that letting go is the difficult part, it's a myth... Holding on something Willy nilly is the main reason of our pain...

The day we decide to let go of our anger and grudges, we actually set ourselves free. The day we decide to forgive some one, is the day we release all the burdens from our heart. The day we decide to let go of the one we love, is the day we find our real love. The day we decide to let go of our made up and influenced dreams, is the day we start coming closer to what it really is all about, the discovery of our real calling. The day we decide to let go of the suffering and waiting for our wishes to come true, is the day we start getting best of our life & the day we let go of our need to please people, is the day we become HERO of our own life...

So just let go all your worries, all your sorrows, all your pains... & be brave to let go all the things which are a barrier to your happiness... Because in the end, its all about happiness n peace...

Just start finding your self, start living your own life... Because holding on to anything will never let you move... so just open up your heart & let it show you the way...
Thank you Sir... #Respect :)

I am sharing this stuff with you all because I have seen people in my life these days who are stuck in their lives & badly depressed... Don't just read the article, but feel the article n apply it...

I'll be glad if this article brings any change in your life my dear friends...

Stay Happy and Stay Beautiful:-

EDITORIAL

Ms. Richa Sapehia
Asst. Prof. BBA Department

**Once you start working on something,
Don't be afraid of failure and don't abandon it.
People who work sincerely are the happiest.**

It is really with a great sense of pleasure and satisfaction that we are presenting to you management section of "LAKSHYA". This management section of "lakshya" carries articles by future managers. They have tried to express their views in their best possible manner. In the emerging highly competitive world, there is obvious need to produce dynamic minds that can adapt to the changing scenario and complex situations and are innovative enough to face the diverse challenges effectively. The whole purpose of education is to bring is out the basic potential lying inside the learner. The basic purpose of magazine publication is to give the youth the chance to write something of their own.

Being an editor of Management section of this issue, I should like to record the debt of gratitude which I owe to all the colleagues and students for the preparation and assistance so cheerfully given in the compilation of Management Section.

“इससे पहले कि सपने सच हों आपको सपने देखने होंगे।”

– अब्दुल कलाम

Student Editor.....

Ruby (BBA I)

Through this magazine the idea is intended to bring out the hidden literary talents in the students, teachers and also to inculcate leadership skills among them. The outside world will come to know about the caliber of the students and the faculty through this medium. Keeping this in mind, I expect the contributions to this magazine very effective and do have the quality. I wish all the success for this venture. I am sure that the Magazine provided a platform to the students to sharpen their writing talent and will strengthen the academic activities of the College. Statements and opinions expressed in the magazine are those of the bylined contributors or of the editorial staff, and do not necessarily represent the official position of the College.

This Magazine is having original contributions from students. Contributions are short stories, articles, jokes, management pomes

The Magazine published which is a truly literary & creative document of the talents of our students & teachers.

THEOREM ON SALARY

Dilbert's Theorem on salary states that engineers, teachers, programmers and scientists can never earn as much salary as business executives and sales people. This theorem can now be supported by a mathematical equation based on the following three postulates:

Postulate 1: Knowledge is power (knowledge=power)

Postulate 2: Time is money (time=money)

Postulate 3: (as every physics students know): power=work/time

It therefore follows:

knowledge = work/time

and since time =money,

we have: knowledge = work/money

solving for money, we get;

money=work/knowledge

Thus, as knowledge approaches zero money approach infinity, regards less of the amount of work done.

Conclusion: = The less you know,The more you make!

1. Management Joke

BOSS:Where do you see the company after 3 quarters?

SALES EMPLOYEE:

After 3 quarters, I don't care about company growth,

I just do

Pratibha
BBA II

2. Management Joke

THIS IS ULTIMATE....

BOSS: *So tell me young man, on what all occasion have realized that you have importance in company and company function without you???*

Employee: *"sir, whenever I asked for a leave"...*

Angry Boss: *Have you ever seen an owl?"*

Employee (with head bowed): *"NO. Sir."*

Boss: *"Why are you looking down? Look up towards me."*

सुकरात -

BOSS

Dear boss.....

Unlimited patience

Heaps of tolerance

To offer support

Always a sport

Contagious attitude

Never angry or rude

Inspirational personality

Almost like a celebrity

This is why you are

Our officer's star!

THANK YOU

“The only

Time some

People

Work like

A horse

Is when

The boss

Rides them.”

VALUE OF TIME

One person worked long and hard for making a great career. One day he decided to rest from the work and to live in luxury for his pleasure, which he could afford because of his wealth.

Just when he made this decision, an angel of death came to him. Being a very wealthy person, he decided to buy some more time from the angel of death at any cost. He bargained for a long time but the angel was unmoved. Desperate, the rich man made the last proposal to the angel:

– Give me just one hour of my life, so that I could admire the beauty of this earth for the last time and spend some time with my family and friends whom I haven't seen for a long time, and I will give you all of my wealth.

But the angel refused again. Finally, the man asked if the angel could give him at least one minute so that he could write a goodbye note. His wish was granted and he wrote a note:

“Spend your time, which was given to you, in the right way. I couldn't buy even an hour of life with all of my wealth. Listen to your heart and check if the things surrounding you have a true value. Cherish every minute of your life.”
